Introduction

The purpose of this booklet is to provide an in-depth view of our long range plans. The establishment of a set of long range goals and of a set of plans to achieve them is an important factor in the stability of an organization. With the information enclosed, we hope to show that our group is fully aware of the aspects of the operation of a fraternal organization and the maintenance of a fraternity house.

The catalysts for the successful realization of these goals and plans are the establishment of a well-run executive council, officers, and committees. With this in mind, the format of this booklet will be that of reports from all of our elected officers (both the present officers and officers-elect for 86-87) outlining what they have accomplished this year, their goals for the next year and their plans to achieve them. Committee reports will appear within the President's report since it is his duty, with the help of the executive council, to establish and appoint the chairmen of these committees.

Executive Council, Past & Present

<u>Position</u>	<u>1985 -1986</u>	<u>1986 -1987</u>
President	Daniel Pavord	Daniel Pavord

Activities: Phi Mu Alpha, Intramurals, Jazz Band

Yankovich, William. Senior Chemical/Biomedical Engineering

Activities: Baseball, Carnegie Involvement Association

President's Report

My main duty and goal for the next year is to ensure the stability and growth of the provisional chapter so that it may attain its charter. A fraternity is a unique brotherhood that must be successful academically, socially, and financially. Strong organization is the key to all three. Therefore, I plan to see that the executive council - consisting of myself, first vice-president, second vice-president, treasurer, and secretary - provides leadership and directs the group towards achieving our desired goals. In order to accomplish this, we will continue to have our weekly executive council meetings, with other meetings called as needed. In addition to these meetings, a tradition of an officers' retreat, held at the beginning of each semester, will be established so that an in-depth plan may be set for the coming semester. Also, a transitional retreat will be held so that the present officers can instruct and advise their successors. This will give the incoming officers a chance to become more familiar with their positions and to attain valuable experience in working together.

The following committees have been established to aid in our organization and operation:

Scholarship - This committee is strongly recommended by National as they place emphasis on the balance between social life and

academics. As of Fall semester 1985, our Fraternity had a QPA of 3.1 - the highest among the Fraternities. In an attempt to maintain this level, the following goals and awards have been established by this committee:

A goal of a minimum house QPA of 2.75. Should the house average fall below 2.75, the committee will make recommendations for taking actions to remedy this deficiency. An action that would probably be seriously considered would be the reduction of the social activities of the house and an increase in academic ones. We would, in effect, be placing ourselves on probation.

An award for the highest QPA and the most improved QPA have been established.

Plans have been made to reserve common areas in the house for studying.

Under consideration is an idea to organize study teams with an award going to the team with the highest QPA.

Social Service - We realize that working for the benefit of the community is a major goal of the Greek system. Last fall, we co-sponsored an MS fundraising mixer with Theta Xi. We are now in the process of making this an annual event. We plan to make our assistance with the WQED Great TV Auction and the CMU Fund Phon-a-thon annual commitments also. We are in the planning stages of a 3-on-3 basketball tournament with all proceeds going to MS (see

attached page). In addition, we fully support any event that is to benefit charity. While this support may be little more than attending a charity event, we strongly encourage our members to attend.

Alumni - Maintaining contact with our alumni is important, both for the alumni and the chapter. Alumni are a great source of support. We presently have contacted all alumni from the original KDR Tau Chapter at Carnegie Tech and have received assistance from our alumni advisor, Mr. Ronald Edgett, as well as other Tau alumni. An alumni homecoming banquet is planned for next fall. In order to solidify the support of these alumni, as well as our new alumni, an alumni corporation is being established. Papers will be filed in Harrisburg this spring to found the corporation.

Social - This committee will mainly be responsible for the planning of events with the other Greek houses. This year we have had dual mixers with both Theta Xi and Beta Theta Pi, and have scheduled mixers with Delta Upsilon and Pi Lambda Phi. Next fall, prior to the start of school, we plan to have an all-Greek open house to establish a good rapport with the previously established houses. We also hope to co-sponsor events throughout the year. In addition, this committee will be responsible for the planning of Parent Weekend which is to be held in conjunction with Homecoming, and our Rose Formal which is to be held in the spring with our elected Sweetheart being the guest of honor.

Intramural - After finishing second in the Intermediate Soccer playoffs, we hope to win the championship next fall. In addition to soccer, we now sponsor teams in football, basketball, indoor soccer, 3-man volleyball, and softball. Next fall we hope to expand upon this base and seek the championship in every sport in which we participate.

Booth - We have entered this year's booth competition with the theme of "Caddyshack". We feel that booth is important because it projects an image of ourselves, the Greek system, and the CMU Community to the people of Pittsburgh and others who visit during Spring Carnival. In the future, we plan to continue to strive to win the booth competition.

Buggy - Because of a lack of funds, we did not enter this year's buggy competition. However, we have begun designing a buggy, and plan to begin construction over the summer so that we may compete next spring.

Greek Sing - A committee to ensure our competition in this yearly event will be established.

Miss America - We are currently planning a local Miss America Scholarship pageant. Kappa Delta Rho National, in conjunction with Miss America Inc., currently sponsors pageants at several chapters. We will have representatives attending the Clarion University pageant and seminar from March 21st to the 23rd. The

seminar will be a gathering of representatives of KDR chapters throughout the nation who presently sponsor, or are planning to sponsor, pageants. It will cover such topics as corporate sponsorship, publicity, and the organization necessary to have a successful pageant. The winner will receive a scholarship and continue on toward the Miss America pageant in Atlantic City, NJ.

Respectfully Submitted,

Daniel Pavord

President

The pledges of Kappa Delta Rho, in conjunction with the Office of Annual Giving, are sponsoring the First Annual 3-on-3 Basketball Tournament. This tournament will be held from Friday, April 4th through Sunday, April 6th, and all proceeds from entrance fees will go towards the campus-wide fight against Multiple Sclerosis. There will be three divisions, Major, Intermediate, and Minor. On the form below, indicate which division you wish to play in, the names and phone numbers of the members of your team, and the address of a team captain, who will receive a set of rules and the date, place, and time of your first game. Please send the 12 dollar entrance fee, along with the completed form below to:

3 on 3 Tournament

Box 1651

Morewood Gardens

Make all checks payable to Kappa Delta Rho

All forms and money must be received by Monday, March 10

NOTE*** Only one past or present CMU varsity basketball player per team

First Vice-President's Report

As First Vice-President, it is my responsibility to plan and organize the fall and spring rushes for the Kappa Delta Rho Fraternity. In order for a Fraternity to increase its membership, it is important to sell the prospective biddees on the Greek system in general, and, far more importantly, on the specific Fraternity itself. Therefore, it is necessary to plan a rush that not only allows the rushing student, henceforth known as the rushee, to enjoy himself, but that also demonstrates to this same student what benefits our Fraternity has to offer him. In other words, while the parties are certainly an important part of rush, we feel that the quieter periods are even more important, since they allow us to become better acquainted with the rushee and visa-versa. A large portion of the rush process is the making of new friends and we hope to have our rushes embody this belief.

During the past year we have held two rushing periods and are planning to hold a third prior to the end of the year. During the fall semester, we decided that it was best to compete directly with the other eleven previously established houses. We felt that this would best indicate our desire to become integrated into the Greek life here at CMU. However, as a result of the lack of a house, we were forced to rush from the individual rooms of the group members. Despite this handicap, we still managed to plan, and successfully conduct, a full

calendar of rush events. A copy of our Fall Rush Calendar is enclosed. As can be seen on the calendar, we sponsored a variety of rush activities that allowed us to establish a personal contact with many of the rushees. This was accomplished by severely limiting the amount of alcohol that was provided at the parties. We felt that we could successfully sell our Fraternity without a large amount of alcohol present. This belief was also in harmony with the Inter-Fraternity Council's desire for a half-wet, half-dry rush.

As a result of the fall rush, we added five members to our group and also made ourselves more visible to the other members of the campus community. We also gained experience in rushing techniques that we utilized during our spring rush and will continue to use throughout next year's rushes.

As is true with most of the Fraternities here at CMU, our spring rush was quieter and more personal. We did not "Dorm Storm" as we had in the fall, but rather we rushed the people whom we had come in contact with since last fall's rush. Since this rush is on a smaller scale, it became even more important to be able to sell our Fraternity on its merits. Our pledge night is on Friday, February 28, and we expect to add another six members to our growing group. However, even though pledge night signifies the end of our spring rush period, we are by no means content to quit rushing until next fall. We plan to continue an active recruitment of new members throughout the rest of the semester and hope to be able to have another pledge night before

the end of the semester.

Realizing the need for a well-organized and well-orchestrated rush, we have already scheduled our calendar of events for the 1986 fall rush. As can be seen on the enclosed list, we are planning an even more extensive calendar than last fall, while at the same time attempting to use our imagination to distinguish ourselves from the other Fraternities. Many of these events have been repeated from last year's rush calendar (i.e. Rock & Roll Chili) and we expect that these will become annual occurrences for which Kappa Delta Rho will become known. We also hope to use these events to show our support for the other campus organizations; an example of this is the College Football Picnic. We expect to have an informal lunch, followed by the attendance of a CMU Football game, a barbecue dinner, and culminating with a mixer in the evening. It is this type of extensive and diverse rush events that we hope will build the basis for a solid fall rush and, consequently, will allow us to achieve our goal of a fall pledge class of 25 or more members.

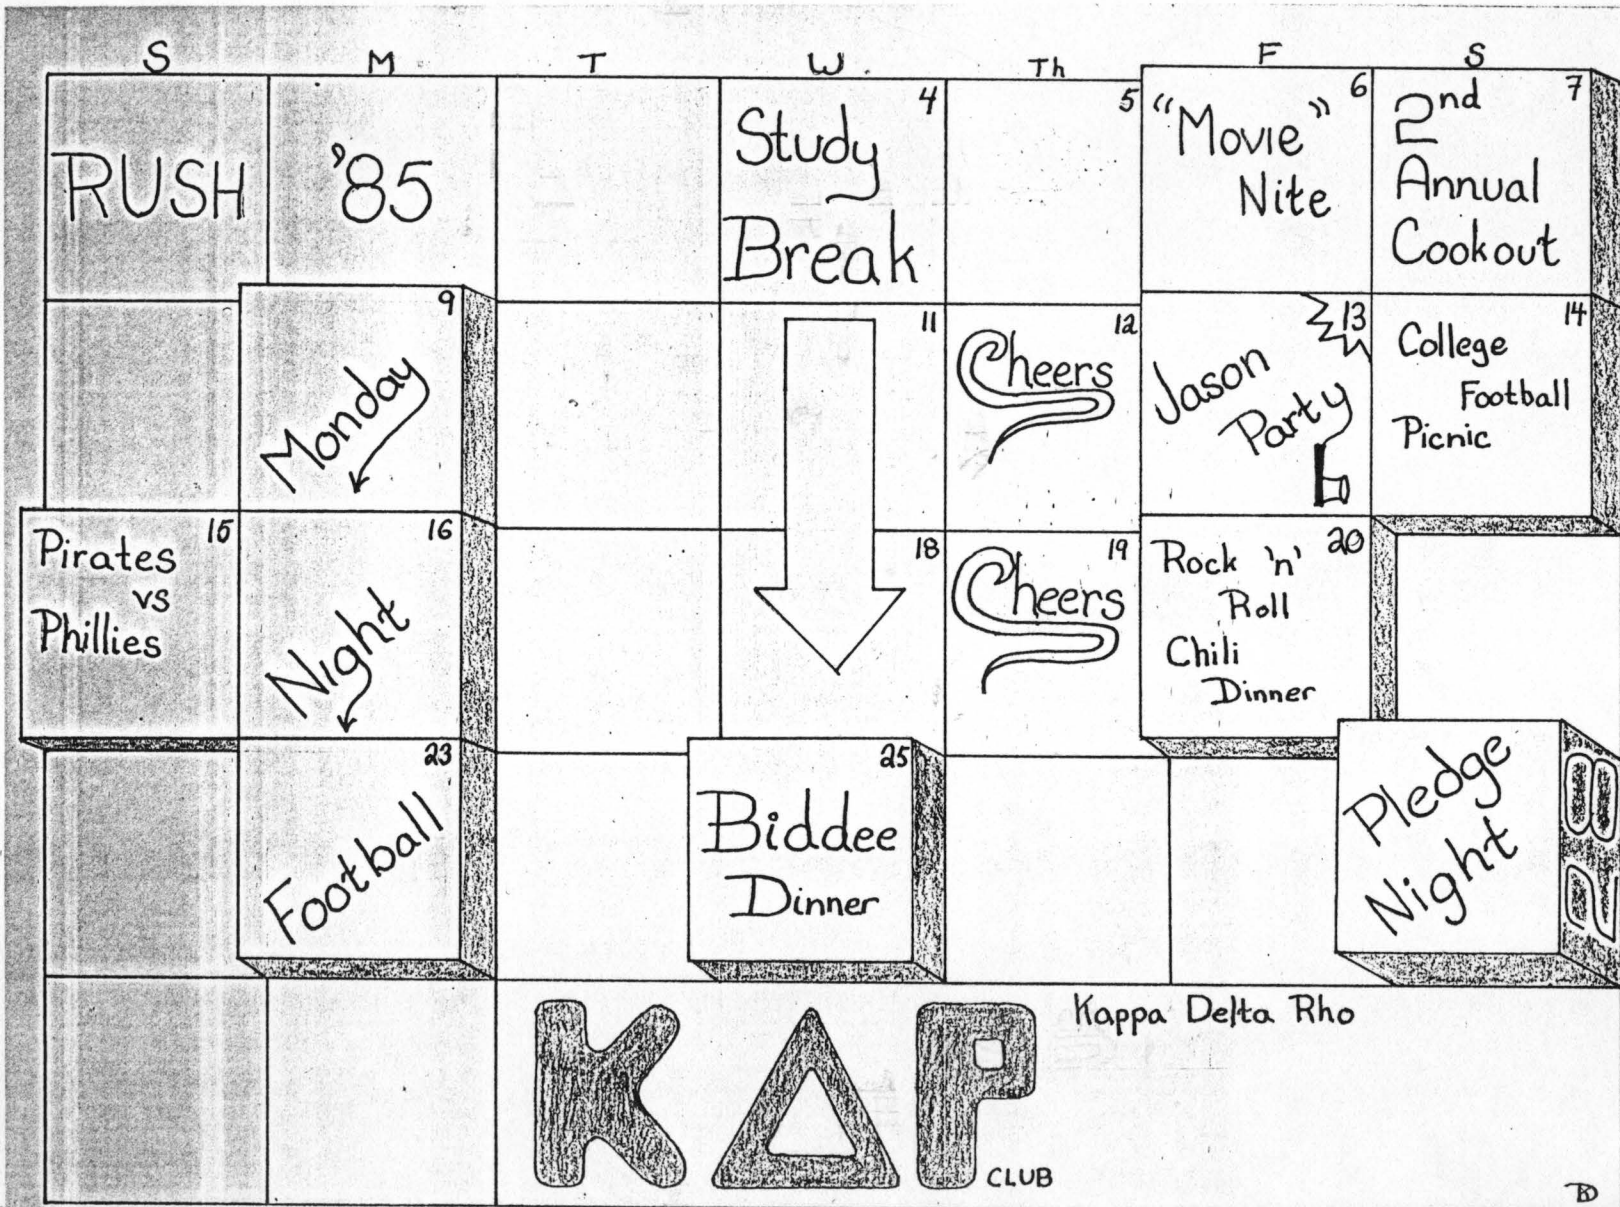

Finally, these events have also been planned such that they may be either wet or dry without any difficulty, in that the emphasis has been, and will be, placed on the themes rather than the alcohol. This design allows us a large amount of flexibility for rush regardless of what the alcohol policy is determined to be. In other words, these events will be held with or without alcohol present. In short, for the past two semesters we have had to rely on our abilities to attract new

members as a result of our strengths and we do not foresee any difficulty in dealing with the possibility of a completely dry rush next fall.

Respectfully Submitted,

John Frost

First Vice-President

Rush Schedule for September 1986

Weeknight Events:

Sundays (7,14,21) -	Steeler Football
Mondays (1,8,15,22) -	Monday Night Football
Tuesday (16) -	Cookout on the Porch
Wednesdays (3,10,17,24) -	O's Fries Study Breaks
Thursdays (4,11,18,25) -	Cheers Nights

Weekend Events:

Friday (5) -	Rock 'N' Roll Chili
Saturday (6) -	Caddyshack Party
Friday (12) -	Miami Vice Party
Saturday (13) -	Dress Cool Party
Friday (19) -	This Man Will Not Be Here Party
Saturday (20) -	The Godfather Party
Saturday (6 or 13) -	College Football Picnic

Biddee Dinner:

Wednesday, September 24

Pledge Night:

Saturday, September 27

Second Vice-President's Report

As Second Vice-President, it has been, is, and will be my responsibility to establish and implement a practical, stable and comprehensive pledge-training program. The primary goal of a mature pledge program is the development of KDR Brothers who recognize the value of the Fraternity experience and thus desire to give of themselves continually to strengthen the Fraternity and the Greek system in general. In order to accomplish this objective, an eight-to-ten week program has been designed wherein the KDR pledge will be instructed in many areas, Fraternal and non-Fraternal alike.

Currently, the members of our group are pledges of Kappa Delta Rho, pending installment as a full chapter sometime next fall, and are undergoing the same training in which all future pledges will be expected to participate. The reasoning behind this is that we feel that no pledge should be subjected to treatment that we would not put ourselves through. Along these same lines, an Anti-Hazing policy has been established by ourselves, by Carnegie Mellon University, and by Kappa Delta Rho National; Hazing has been defined as "... anything physically, morally, or socially objectionable."

The pledge-training program has been divided into modules so that the material is presented in a logical and orderly fashion, thereby helping to create a smoother transition towards brotherhood. These

modules cover such topics as: Fraternity History (General, National, and Chapter), Fraternity Structure (National, Chapter, and Alumni), Rush - a Brother's responsibility, and Chapter proceedings. While being trained in the Fraternal aspects of the group, the pledge, via his Big Brother, would also be instructed in the expectations of the Fraternity regarding academics, proper social behavior, and campus involvement.

One of the main goals for next year will be to instill in our future pledges the sense of pride and responsibility towards the Tau Chapter of Kappa Delta Rho that we, ourselves, currently have. Our organization is a cohesive group of students who have academics as their first priority, but who also realize the benefits of a strong and diverse social life. We strongly believe that these ideals need to be preserved and hope to accomplish this through our pledge training program. Our ultimate goal is to insure that, when we return to CMU as alumni, the Tau chapter will still embody the same ideals as it did when it was rechartered.

Respectfully Submitted,

Daniel Dunbrack

Second Vice-President

Treasurer's Report

Our Fraternity, Kappa Delta Rho, operates as a business. As a result, we have developed a balanced budget, a comprehensive dues paying system, and an efficient method of handling funds.

Our experience with the Kappa Delta Rho National has taught us to emphasize the importance of budgeting, planning, and setting goals in running our business. As outgoing and incoming treasurers, we have incurred the following responsibilities:

- Accounts Payable
- Accounts Receivable
- Banking
- Planning of the house budget
- Monthly Financial Reports
- Business Relations

In developing our budget for the fiscal year 86-87, we have had aid from the treasurers of Delta Upsilon and Theta Xi, as well as a formal meeting with the executive council of Beta Theta Pi.

In following, we are presenting this budget for the Fall of '86 and a tentative budget for the Spring of '87.

Respectfully Submitted,

Ronald Comstock
Treasurer 85-86

Recording Secretary's Report

As recording secretary for the provisional chapter of Kappa Delta Rho, we are responsible for the maintenance of internal records and the daily relationship with KDR National. In conjunction with an appointed Historian, we also have chronicled the history of Kappa Delta Rho at Carnegie Mellon University. A few words about that history seem appropriate at this time. On May 16, 1930, Arthur Ottman installed the Tau chapter of Kappa Delta Rho at Carnegie Institute of Technology. We quickly rose to prominence on campus, winning the very first Sweepstakes at Carnegie. In 1939, due to legal complications, the Tau chapter was inactivated.

In 1982, William Aigner approached Kappa Delta Rho National concerning the reactivation of Tau chapter at Carnegie Mellon University. In less than four years, we have fulfilled the requirements set forth by National necessary to becoming a provisional chapter. These requirements included establishing by-laws, a budget, a dues-paying system, social service projects, and the establishment of formal relations with the Inter-Fraternity Council. We are now seeking full chapter status, and the recording secretary is an integral part of this process. It is vital at this time that close communications be maintained with National, and so this year will be

especially busy for the recording secretary.

Goals for the upcoming year include the maintenance and expansion of the weekly meeting records, increased contact with National, and, in conjunction with the Historian, a detailed compilation of Tau chapter history. This will be distributed to all Tau alumni and the closer alumni clubs, to increase awareness of Tau chapter as a group. Although this year promises to be the year of greatest expansion yet, and thus the busiest for the recording secretary, we feel confident that it will also be our most successful to date.

Respectfully submitted,

Alex Smith

Recording Secretary 85 - 86

David Kirkpatrick

Recording Secretary 86 - 87

Corresponding Secretary's Report

The duties that fall under the jurisdiction of the corresponding secretary are public relations between our Provisional Chapter and our alumni, the university, and also the community.

Plans are underway to create an alumni corporation for past and future Kappa Delta Rho alumni of the Tau chapter here at Carnegie Mellon. The alumni corporation is the backbone of a solid brotherhood. It will insure our chapter's stability and continuity. The major role of the corporation will be to hold all leases and mortgages, employ the cook and any other necessary personnel, and to guide our chapter in all matters of operation, particularly those in the financial area. The alumni corporation also chooses an alumni advisor and a faculty advisor for our house.

Also aiding our chapter will be the Kappa Delta Rho Alumni Clubs. These clubs are comprised of alumni from all chapters who live in the same geographic area. In the past, these clubs have been of great assistance in helping chapters and colonies in their particular regions. Since over 1000 KDR alumni live in the Pittsburgh area, their wisdom and experience will be a valuable asset to our Provisional Chapter.

So that we may keep in contact with both the alumni corporations and the alumni clubs, we plan to begin publishing a

semi-annual newsletter, as recommended by National. It will be sent to all Tau alumni, every other KDR chapter, and to local alumni clubs. The newsletter will contain our latest accomplishments, problems, and general information.

The last of the corresponding secretary's responsibilities is to submit articles to The Quill and Scroll, the National magazine of Kappa Delta Rho. The magazine is sent quarterly to all Kappa Delta Rho actives and alumni. Through it, we can update all KDR's of our latest activities and achievements.

Respectfully Submitted,

Kevin Murtha

Corresponding Secretary 85-86

Ronald Comstock

Corresponding Secretary 86-87

IFC Representative's Report

As this was Kappa Delta Rho's first full year of sending representation to the Inter-Fraternity Council, our goals for 85-86 were to be recognized by the IFC, to integrate Kappa Delta Rho into the Greek system at Carnegie Mellon, and to receive its recommendation for the occupancy of 1071 Morewood Avenue.

Our first contribution to the Greek community was our assistance with the annual Watermelon Bash. We aided the IFC with preparations and clean up for the traditional event signifying the start of fall Fraternity rush. After a successful fall rush, we were recognized by the IFC as a social Fraternity, which we viewed as an essential step to forming our chapter here at CMU. Since we feel that good relations with the other houses is essential to a strong chapter and the Greek system, we have had dual mixers with Theta Xi and Beta Theta Pi, as well as scheduling mixers with Delta Upsilon and Pi Lambda Phi for the spring semester.

A major step toward acquiring a house on the Fraternity quadrangle was achieved on January 28 when we received the recommendation of the Inter-Fraternity Council to be the Fraternity that will move into 1071 Morewood in the fall semester. We feel that this is a important accomplishment since it shows that the IFC feels that we are the Fraternity which will best fit into the Greek system at

Carnegie Mellon.

Our goals for the next year include acquiring full status as a voting member of the IFC. We plan to hold an open house at the start of the fall semester in order to promote Greek spirit and to establish stronger ties with the brothers and sisters of the existing houses.

In closing, we feel that it is very important to become involved in the IFC, as it is the governing body of the Fraternities and Sororities, and as dues paying members, we will work with the IFC to achieve its goals and ideals.

Respectfully Submitted,

Bryan Roessler

IFC Representative

House Manager's Report

The following pages contain the plans and estimated costs for the renovation and maintenance of 1071 Morewood Avenue for the 1986-87 school year. The house renovation proposals are for the house common areas: the basement, the main floor, and the upper level hallways and bathrooms. Because the individual rooms are currently up to dormitory standards, any improvements in the rooms will be left up to the occupants of each room. The maintenance proposal entails general expenditures and a weekly work session schedule.

The plan presented here is a preliminary draft - it is to be used to allow us to estimate the time and cost that will be involved in the renovation of the house. The repair estimations have been based upon the expectation that the residence has been maintained at a dormitory standard of living.

Renovation is expected to begin in Mid-April with the taking of the measurements of the common areas. With these measurements, a final set of plans will be drafted. At this point, it is expected that we will discover that some of the previously planned repairs will not be necessary; however, it is also expected that some unplanned repairs will become apparent.

The restoration will be completed by the KDR members who live in the Pittsburgh area and also by those that are remaining on

campus for the summer. The completion date is currently set for the weekend prior to the arrival of the freshman class - August 15, 16, 17. With the intention of improving our relations with the Greek community, we plan to hold a Greek Open House on Wednesday, August 20.

The subsequent house maintenance will be conducted via weekly work sessions. These work sessions will be completed by current KDR brothers and pledges and the sessions will be on a rotation schedule so as to fairly divide the work load. Regular maintenance will include such duties as cleaning the common areas and making any necessary repairs. Finally, the money allocated in the budget for the 'house' will be used for miscellaneous items such as toilet paper and lightbulbs.

Respectfully Submitted,

Scott Spriggs
House Manager

Steward's Report

The duty of the steward is to insure the smooth operation of the kitchen. This includes the ordering of food and supplies, the organizing of dinner crews, and the maintaining of kitchen facilities. In preparing for these new responsibilities we will incur next fall, we have met with the steward of Beta Theta Pi so that we can begin to contact the necessary area business. The following is a tentative list of the different companies we plan to patronize to fulfill our needs in the fall:

Produce:

D. J. Lamantia, Inc.
2626 Penn Ave.
Pittsburgh, PA 15222
566-2700 or 566-2701

Meat:

Weiss Meats
219 Route 51
Clairton, PA 15025
384-4040 or 461-1411

Dairy:

Turner Dairy
1049 Jefferson Road
Pittsburgh, PA 15235
242-1700 or 372-2211

Bakery Goods:

Rimini Bakery
522 Larimer Ave.
793-7143 or 661-2308

Juices & Drinks:

Flavoripe Co.
2839 Liberty Ave.
Pittsburgh, PA 15222
471-3183 or 471-3110

Produce:

Behrhorst
3115 Washington Pike
Bridgeville, PA 15017-1497
343-9060

In addition, it will be necessary to hire a cook. This will be handled by our alumni corporation. Applicants will be interviewed during the summer recess. To avoid a financial mishap, all funds used for cook's wages and food costs will be handled in an account separate from that of other house expenses. It will be funded by an assessment of \$500 per semester per brother for a food plan of 10 meals each week.

Respectfully Submitted,

Alexander Smith
Steward

Conclusion

Upon receiving the full support of the IFC and the establishment of our group of intent as a provisional chapter of Kappa Delta Rho, we have achieved the initial goals set by our members in the fall of '85. We have now set new goals which include full University recognition, the establishment of a strong house in the Fraternity quadrangle, and the receiving of full Chapter status granted by Kappa Delta Rho National. Along with these goals, we would like to see our membership remain above 50 brothers following next fall's rush.

We hope that our past record and these future plans will demonstrate the strength and stability of our organization. This strength and stability, in conjunction with the ability of a group to gain new members, are the key factors in the growth of a Fraternity. We feel that our Provisional Chapter of Kappa Delta Rho National Fraternity has exhibited these qualities and, with your recognition, we hope to expand our membership, to receive our National Charter, and to continue contributing to the Greek system and the Carnegie Mellon community.
