CHAPTER REPORTS	121

Entered as second class matter at the Shelbyville, Indiana, post office under the act of March 3, 1879.
The Quill and Scroll of Kappa Delta Rho is published at 12 E. Franklin Street, Shelbyville,
Indiana, in January, April, June and November. Only life subscriptions are available
at ten dollars each in the United States and Canada.

The College Fraternity and the War

Special Report of the War Committee of The Interfraternity Conference

When the War Committee reported to the National Interfraternity Conference on November 28, 1941, Canada had been at war for more than two years. The United States had not yet entered the great conflict. Our report was therefore little more than a summary of the avenues through which the fraternities in the United States had been contributing to the defense program. A separate report was made to the Conference by a committee which had studied the Canadian aspect of fraternity life in relation to war.

The declaration of war by the United States against Japan, Germany and Italy brought new and serious problems to the 2,500 fraternity chapters on the North American continent.

A widespread demand for the presentation of suggested solutions of the questions arising out of the inevitable departure of men from undergraduate fraternity life to serve their country has prompted the publication of this special bulletin. It was prepared by the War Committee of the Conference, in consultation with college and university officers and with fraternity leaders. It bears the approval of the Executive Committee, the ad interim administrative body of the Conference. It should be regarded as merely a preliminary, exploratory survey, subject to many changes as we march down the corridor of time to victory.

The Fraternities in the First World War

The history of the participation of college fraternity men in the first World War is a bright page in the annals of devotion of educated men to the ideals which had been instilled in them at their altars. The Canadian fraternity men were the first, of course, to respond in 1914. Many chapters in

the Dominion were almost completely drained of man power.

When the United States took up arms in 1917 the college Greeks moved rapidly to join the colors. In some instances entire chapters signed up for the duration. Many houses were closed or rented to non-members and often several groups combined lodging and boarding facilities, maintaining, of course, their own ritualistic procedures.

The Student Army Training Corps came to many campuses. The Greek-letter lodges served in numerous instances as barracks for the enrollees of the corps.

In September, 1918, a disheartening memorandum came from the Committee on Education and Special Training of the War Department to the effect that fraternity activities were incompatible with military discipline and that the operation of fraternities should be suspended. This was indeed a staggering blow to the Greek-letter society, for with the cessation of initiations the life blood of the fraternity would cease to flow.

The officers of the Interfraternity Conference interviewed Secretary of War Newton D. Baker, a devoted and understanding fraternity man. A few days later the objectionable memorandum was rescinded and the following was substituted therefor:

"It is desired that no restrictions shall be placed on elections to fraternities; also that no restrictions shall be placed on fraternity activities, including initiations and meetings, except such as are clearly necessary to preserve proper military training and discipline. In determining what, if any, restrictions are essential the commanding officers will exercise tact and good judgment."

Thus was the American college fra-

ternity preserved in the dark hours of 1918!

No such crisis, so far as present regulations of the War Department are concerned, is expected to be faced by the fraternities in the current emergency.

Why Students Should Stay in College Until They Are Called for Service

What should be the course of the man still in college in relation to joining the colors?

For the answer to this all-important question your committee has turned to two citizens whose positions of distinction eminently qualify them to give counsel.

Brigadier-General Lewis B. Hershey, Director of Selective Service in the United States, has issued the following special statement for this report:

"I think that the recent trend of events is beginning to impress one fact on our minds with greater and greater force. That fact is not a pleasant fact and it is a fact that is divorced from romanticism.

"The fact is this: We are fighting a war unlike any other war we have fought, because no war we have ever fought before has demanded, to such an enormous extent, cooperation between the troops in the field and the men and women who must be delegated to stay at home to supply the sinews of war for fighting troops and to care for the need of the civilian population.

"The theory of Selective Service is in no way complicated. The theory is as simple as A.B.C. It is predicated on the principle that in a war such as we are now fighting every person has his place. That place is where he will be able to accomplish the most toward the common objective—TOTAL VICTORY.

"It is not for me to say which of you, as individuals, should be called to

the armed forces and which of you should stay and complete your college courses.

"But it would appear plain enough that patriotism—real patriotism, *sans* maudlin sensationalism—demands that you stick with your present job and stick with it hard and work with it hard and give it all you have got—until such time as your local Selective Service Board decides that you can serve your country more effectively in some other pursuit."

And this is the counsel of President Edward C. Elliott of Purdue University:

"We are engaged in a grim struggle for the survival of ourselves and our ideals. We are called upon to give proof that we are what we were thought to be.

"A supreme national task during these perilous days is promptly to mobilize and effectively to allocate all of our manpower, especially that portion of the manpower composed of individuals possessing the needed forms of training. For modern warfare is a battle of machines and a test of the knowledge and skill of the men who make and operate these machines.

"The nation has adopted the policy of selective service as the basis for the effective utilization of its manpower. Under this policy students in higher institutions of learning occupy a place of distinctive responsibility. Every branch of the national service is calling today for more and more men with specialized training. Men in colleges and universities are constantly urged to continue their work as students so as to be ready for these specialized tasks.

"Whenever and wherever I have a chance to do so I am urging upon students, especially those of ability and ambition, 'If you have the brains of patriotism continue your study and self discipline for the performance of those duties that require trained brains.

Use the V-1 Program in Rush

Released by Public Relations Office, Ninth Naval District, Great Lakes, Illinois

Rushing chairmen who find high school graduates and their parents debating the value of starting college next fall need acquaintance with the Navy's new V-1 program.

It is an officer training project open to freshmen and sophomores who have reached their 17th birthday and are not yet 20 years old. The basis of the plan is to provide a means for college underclassmen to definitely determine their status in the armed forces and yet be able to stay on the campus in preparation for a commission. The project offers a headstart toward becoming a naval officer.

Underclassmen who act immediately to enroll will take the regular college courses, get all the fun of campus and fraternity life for at least two years. They will be expected to merely elect studies stressing mathematics and the physical sciences, which will help qualify them to pass a classifying examination during the second calendar year when it will be determined which men will be selected for further preparation on the campus.

Of the college men which the Navy accepts for enrollment in the V-1 program each year, 20,000 will be permitted to enroll immediately for specific training to become officer air pilots. 15,000 more will be selected to continue in college till graduation for further preparation as deck or engineering officers.

Rushing chairmen who find candidates for pledging who are debating college entrance can make the opportunities of the program well known, very wisely.

The high school graduate whose patriotism makes him want to "join up now" may serve his country by preparing himself to become the highly-train-

ed man which the Navy requires as an officer. The graduate who fears he may have too short a start in college to be of value to him before he may be called to duty, will have assurance of at least two years, and perhaps four, before his studies are interrupted.

Many of the chapter's present freshmen will be interested in the program, too, because of the headstart it offers toward a naval commission.

Rushing chairmen, other chapter members, and prospective college freshmen should inquire at the nearest Navy recruiting station or at their college registrar's office for full particulars on the program.

Bullitt & Middleton

On January 1, 1942, the law firms of Bruce & Bullitt and Crawford, Middleton, Milner & Seelbach, with all their members consolidated their partnership, and will continue the practice of law at 1700-1730 Kentucky Home Life Building, Louisville, Kentucky, under the firm name of Bullitt & Middleton.

Bro. Leo T. Wolford, Epsilon, '12, National President of Kappa Delta Rho, has been associated with the law firm of Bruce & Bullitt for many years, and now continues his connections with Bullitt & Middleton.

Both of the above mentioned law firms have a long and reputable standing in their city and state. The law firm of Bruce & Bullitt had its beginning in 1812 by William C. Bullitt. During the past one hundred and thirty years, the city of Louisville, Ky., has been served by the Bullitt family in the council of law. Although partners have been taken in from time to time through the years, it is interesting

(Continued on Page 140)

Alumni S.O.S.!

This year, more than ever before, fraternities over the country will turn to their alumni and ask assistance in rush. With the decreased number of students in school, and the speed-up program of all institutions of higher learning, which graduates men in three years instead of the usual four, and with the increased costs of operation, the chapters must have more men on their chapter roll, if they expect to survive.

Do you have a son, brother, nephew, cousin, neighbor, or friend who is planning on entering college this year? If so, talk to him. Take him back to your Alma Mater during the summer. Show him "the house," your fraternity house where you lived when you were in

school. Tell him what a swell bunch Kappa Delta Rho had then, and still has. Sell him Kappa Delta Rho.

At the same time, write to your chapter, or in event that you have been away for a few years, and do not know any of the fellows who are there now, write direct to the National Office, telling everything of interest about the boy. Below is a form which has been placed there for your convenience. All you have to do is answer the questions and mail it either to the rushing chairman of the chapter where your prospect is going to school, or send it direct to your National Secretary, and he will see to it that it is forwarded to the chapter and the boy contacted. Do this today, and you will be proud of your efforts for your fraternity.

KDRs Under The Flag

(Continued from April Issue)

In recent weeks we have been advised of the following brothers who have joined the armed forces of our country. Some of them are at places unknown, but to the best of our ability we have given their camp address. Why not take time out and write those brothers you know who are helping make our free country safe for you and me? We would appreciate it if you should send in any additional names which we have not already listed, so that every brother might receive the recognition due him.

(Continued on Page 140)

FRATERNITIES AND THE WAR

(Continued from Page 107)

Any worthwhile fighting patriotism today is 90 per cent trained ability to do, based upon rigorous training.'

"The men of the American college fraternities are themselves the product of an academic selective service. Now is the great opportunity for the fraternity men throughout the land to prove that their own selective service system matches our American selective system."

Similarly, the *University of Toronto Monthly* for February, 1942, quotes Dr. H. J. Cody, the president of the university, as believing that "more and more men will enter the active service forces, but perhaps not immediately since the government has given a general direction that men should finish their courses before enlisting, particularly those courses related to the war effort."

The Financial Problem

The Achilles heel of the fraternity in wartime is finances. The giddy '20s brought to many a college campus mortgaged mansions of magnificence. It became a fashion to keep up with the Gammas, come what cost. The depression of the '30s took its toll of Hellenic houses, but a very large percentage survived and there still remains the Ogre of Fixed Charges. How can the monster be outwitted with the ranks of the home guard depleted?

The strategy is not complicated. It is simply a determined effort to maintain a house strength which will carry the budget and to reduce the budget to the lowest possible amount without impairing vital functioning.

How maintain house strength?

Your committee makes no claim to all-inclusiveness in the following suggestions, but they may point the way to other techniques:

The most important objective of fraternities in these days of more diffi-

cult recruiting is the making of fraternity life more purposeful and hence more attractive to those who are considering membership. The yesteryear of excessive bridge-playing and soft-chair calisthenics has passed. The slogan is now "Off your own beam and on Victory's beam!" Three dots on the past and a dash for real achievement.

If you stay on the defensive, you are licked. Get on the offensive now!

The accelerated educational programs, with new men entering college at various times during the year, make rushing an all-season pursuit. Rushing regulations should be examined with a view to meeting the new situation. Long periods of deferred pledging may have to be shortened on all campuses.

Earlier initiations should be made possible, so that the new men may sooner be schooled in the technique of chapter administration. Where certain academic achievement has been a prerequisite to initiation, either by college regulation, chapter action or interfraternity agreement, consideration should be given to the possibility of advancing initiation to the end of the first marking period. Your War Committee does not wish to minimize the importance of maintaining standards in scholarship, but it points out emphatically that this is a time of war.

On every campus there are men who would make good fraternity men who have not received invitations. The high-ways and the by-ways of Academe should be scoured for such recruits. In some colleges the deans have helped by sending out questionnaires to non-fraternity men, asking them if they would like to join a fraternity and then turning over the affirmative replies to the chairmen of the rushing committees.

Once recruited, the pledge delegation should be thoroughly schooled in a concentrated novitiate training course, so that the new men may know

and appreciate the worth and *mores* of the organization to which they are to swear their allegiance and which they are soon to serve as officers and committee chairmen as older men leave for the armed forces.

Some Suggestions for Chapter-House Economy

With the chapter strength built up to its highest possible point, the next step is the effecting of economies in chapter-house management and the social programs.

In its report to the 1940 Conference, the Committee on Policy set forth some excellent suggestions for cutting down chapter expenses. Your War Committee has drawn freely from that report and from replies to form letters sent to the deans of colleges having fraternities and to the fraternity secretaries in setting up the following guideposts to economy:

The rising cost of foodstuffs and household commodities again emphasizes the necessity for judicious buying. Notable examples of successful interfraternity cooperative buying enterprises are to be seen at Oregon State College and at Ohio State University. We are confident that the deans of men at these institutions would be glad to serve the fraternity cause elsewhere by furnishing full information as to the plans employed.

It is essential that the increasing costs of living should be correlated with the charges made by the chapters to their members by frequent checking against the graph of expenditures for food, etc.

Some of the chapters in co-educational institutions have utilized the services of home economics departments by obtaining suggested menus of sufficient variety to lend zest to the meals and made up of items of modest cost. Some chapters have already inaugurated "no meat" days, "no butter" days and "no dessert" days.

Stewards and chapter hostesses who purchase food for fraternity meals should be zealous in shopping and in checking invoices. The same care should be exercised by house managers who buy commodities for maintenance and repairs. A resounding "nay" should greet any proposal to buy non-essentials.

A campaign, given teeth by penalties, should be inaugurated to urge the men in the house to turn out the lights upon leaving rooms, whether study or common. Economy in the use of fuel and water is also imperative. There should be a monitor on the long-distance telephone, a source of substantial loss in many chapters.

The response to the circular letter sent to the deans of men carried one almost universal suggestion for the reduction of expenditures. It was a plea against party "frills." A former president of Cornell University once observed that "Scholars are not monks." Even in war time a certain amount of recreation is not only desirable but necessary to maintain the morale of American youth. But the "big name" band and the expensive orchestra have no place in an all-out war. Careful planning can produce as much fun on a modest scale, with less paying of the piper.

All groups in the local interfraternity councils should enter into pacts to reduce rushing expenses to a minimum. Too often the worth of the pelts of the captured animals is not commensurate with the bounty paid therefor.

A careful study should be made of the wages of house servants. Many tasks now performed by hired help can be handled by members of the chapter. Kitchens are often overstaffed with student help. Too many chapters are offering "free rides" to members as a part of the hypnotism of bidding day.

Judicious editing can reduce the size

of chapter publications. Mimeographing is often less expensive than printing. In these serious days some of the gossip-column trivia about undergraduates might well be eliminated and the space saved devoted to recording the deeds of brothers on fields of honor.

Hand in hand with economy marches the question of accounts receivable. The importance of a "pay-as-you-eat-and-sleep" program is obvious. The cash available for tradesmen and for the house corporations should be at its maximum at all times. The brother who does not pay his bill promptly should be moved out of the house. Campus-wide unified practice in this respect will make the problem easier for each group. In these days when the summons to the colors come quickly it is important that no accounts should be permitted to be overdue. Some fraternities are anticipating such eventualities by requiring payment of bills in advance, a practice long followed by colleges.

With regard to the perennial—war or no war—question of alumni accounts receivable, the temporary prosperity should be capitalized by diligent and continuous solicitation of debts owed. Many of the young alumni now entering the service as junior officers are in better financial position than they would normally be as they started at the bottom of the ladder in peacetime occupations. Eternal vigilance is the price of success for the bill collector, whether he represents a tailor or a fraternity house.

Excellent results have been obtained by sending letters to the parents of each pledge, setting forth his financial obligation to the chapter.

Your committee calls attention to the value of the services rendered by local professional accountants in assisting in the preparation of budgets and the keeping of books of record and account. In these times when the treas-

urer of the chapter is likely to be called to military service these permanent establishments are in a position to preserve the continuity of fiscal management. In all chapters two or more assistant treasurers should be in training for the duties that may fall upon them almost overnight.

The Question of Chapter-House Mortgages

And now we come to the mortgages. In some chapters, prudent in the management of house affairs since the last war, these obligations are not burdensome; in others, which yielded to the lure of keeping up with the Gammas, they present a very serious situation.

If the war continues long—and who is sanguine enough to believe that it will not?—it is obvious that in many instances there will have to be material readjustments of the schedules of curtailment. Your committee is of the opinion that the lenders of money will lend an ear to an intelligent and documented appeal for the suspension of principal reduction for the duration, provided showing can be made of a determined policy to keep up the interest payments. It may, indeed, be possible to obtain modifications of the interest rates, although we may be too optimistic in holding forth this hope.

As in the last war, chapters which find the going hard should not let false pride keep them from entering into arrangements with other chapters for combined eating facilities or possibly combined lodging, if the house to be vacated can be rented advantageously. Fraternity residence in college dormitories might prove beneficial to both college and chapter.

The further suggestion is made that alumni, non-fraternity men and recommended townsmen be offered accommodations in the fraternity houses, subject, of course, to certain codes agreed upon in advance.

In several colleges the administra-

tions, mindful of the problems which face the fraternity houses, have agreed to suspend for the duration regulations which require that freshmen reside in the college dormitories or which insist upon long-term leases of rooms occupied by upperclassmen.

Several colleges have established student room rent at a flat figure. This applies in the same amount to fraternities and dormitories. Each student's room rent is collected by the college. Each fraternity receives the room rent in full for those members living in the fraternity house.

In any study of fraternity house operations it should be borne in mind that the accelerated educational programs in many institutions will result in the fraternity houses' being open for at least two additional months each calendar year. The room rent thus collected will be a material factor in meeting the charges payable annually to the house corporations.

Morale Is An Important Factor

The United States Office of Education in Washington has been urging the colleges to cooperate in a nationwide program of public discussions to develop civilian morale as a part of the war effort. This is both a compliment and a challenge to organized education and to its adjunct, the college fraternity. In essence, the objective of the Office of Education is to organize groups — appropriately called "Freedom's Forums" — to discuss various themes bearing on the war effort. Chapters desiring further information on this subject are advised to send \$1 to the Superintendent of Public Documents, Washington, D.C., for a year's subscription to *Education for Victory*, a bi-weekly publication.

A valuable publication in this field for discussion is called "War Service Opportunities for College and University Students." It is published by the American Council on Education, 744

Jackson Place, Washington, D.C., and provides concrete descriptions of specific opportunities for special types of services, military and non-military, for both men, on commissioned officer level, and women. A copy has been sent to each college and university president in the country and should be available for local discussion groups. The entire series may be purchased for \$2.

The American Council on Education is also shortly to publish a survey of the personnel needs of the armed forces in terms of enlisted men. The summary report will seek to answer three questions: 1. What are the training needs in enlisted personnel of the armed forces for which college training may be beneficial? 2. What pre-induction education would be beneficial to men entering the armed forces after one or two years of college? 3. To what extent are the armed services conducting their own training programs to meet these needs? The Office of Education Wartime Commission will take up the project there and make more detailed analysis of specific courses which would be most helpful. These will be published in *Education for Victory*.

Alert chapters will invite informed alumni back to the houses to discuss current events and to bring the gospel of sustained fraternity interest and loyalty in the face of wartime dislocation.

Likewise, alert chapters will send a cheering word to their members who are in uniform, for on the far-away battle line or in the lonely hours in camp the memory of warm fraternal handclaps and of the stirring songs of brotherhood are magnificently comforting.

The need for sustained academic endeavor within the chapter house has doubtless been brought to the attention of fraternity men everywhere since the fateful December 7. Your committee

echoes the call to the books. Some rigid self-discipline is required of men still treading college paths. Anticipating eventual call to the service, they will be tempted to adopt the philosophy of "Eat, drink and be merry, for tomorrow we drill." The importance of academic achievement as a pre-requisite to whatever call may come to the college man is so obvious that it hardly needs to be pointed out. This is a war of science and engineering and scientists and engineers of top-flight training will be required. The arts course man, too, will better serve his nation if he has sharpened his mind upon the grindstone of the curriculum.

The signs of the times point also to the abandonment of so-called "Hell Week" activities in public. Citizens of college communities, mindful that men are dying on land and sea, are in no mood to gaze indulgently upon the silly pranks of college freshmen in the name of some Greek-letter society.

Intramural activities taken in moderation stimulate; taken in excess they intoxicate. While the program of within-the-walls competitions generally offers splendid opportunities for the physical development of fraternity men, the whole program should be examined on each college campus to determine those schedules which merit continuance and those which should be abandoned so that the full energy of the fraternity men may be devoted to telescoped college careers.

Some fraternities require that their chapters daily display the flag of their nation. Your committee recommends widespread adoption of this visual token of fealty.

An essential part of the morale factor of the fraternity at war should be service to nation and to community. Many chapter men are contributing to blood banks, aiding the Red Cross, schooling themselves in first-aid, patrolling as air-raid wardens, serving as airplane spotters and acting as auxili-

ary police and firemen. If a chapter is in an air-raid-menaced area, it should take steps to safeguard its important records and memorabilia.

Many fraternities have been purchasing Defense Bonds, both of the United States and Canada, from their surpluses and many chapters have been making similar purchases from their building, replacement and sinking funds. It should be pointed out that the government is urging that defense bonds and stamps be purchased primarily from *new savings*.

Many chapters are making the facilities of their houses available to service men on leave.

The Alumni in the Emergency

Back of the front line of undergraduate fraternity life stands the reserve battalion of alumni. This potent force is ready to step into the breach and hold the fortress when the signal for help is flared.

The "old boys" of the American college fraternities are going to be called upon in this great emergency to contribute generously of time and of treasure to insure the continuity of the societies which so richly contributed to their character building in undergraduate days.

Your committee strongly urges each chapter which has not yet formed a war-time alumni council to proceed with the organization immediately. It should be composed of men not likely to get an early call to military service. Each member should be assigned a specific field of supervision, such as house and grounds, debt collections, house corporation, rushing, scholarship, chapter publication, alumni relationships, including compilation of records of members in service, cooperation with the college or university, interfraternity relationships, pledge training, archives, traditions, discipline, morale, etc.

In addition, each college campus

should have an interfraternity alumni council which should meet frequently to discuss matters in which all of the Greek-letter societies have a common interest.

Regional interfraternity associations are also helpful in meeting the problems that are confronting the Hellenic world. A notable example of such a successful group is the Interfraternity Alumni Association of Southern California.

City alumni clubs can be increasingly helpful by sponsoring special fraternity-wartime projects, possibly in relationship to the nearby chapters.

Here the alumni have an opportunity to exemplify the definition of a college fraternity written by the late Secretary of War Newton D. Baker:

"A fraternity is an association of men, selected in their college days by democratic processes, because of their adherence to common ideals and aspirations. Out of their association arises a personal relation which makes them unselfishly seek to advance one another in the arts of life and to add, to the formal instruction of the college curriculum, the culture and character which men acquire by contact with great personalities, or when admitted to partnership in great traditions.

"A fraternity, too, is of such character that after men have left college they delight to renew their own youth by continued association with it and to bring their richest experiences back to the younger generation in part payment of the debt they feel themselves to owe to the fraternity for what it gave them in their formative years."

The Armor of Spiritual Values

In conclusion, your committee has the following observation to make:

The heavy emphasis laid upon science during the past two or three decades, at all educational levels, has produced, we believe, one most unfortunate and perilous result, namely, the de-

velopment of a conviction among many college men that nothing is real, nothing desirable, nothing even tolerable, which cannot be presented in a graph, examined through a microscope or subjected to the scrutiny and evaluation of the chemist or the physicist.

Now all of us know that every respectable fraternity on earth was founded on certain ideals and exists for the perpetuation of those ideals in the lives of its members. It is very easy for older men, who as officials determine policies and guide procedures in their respective groups, to lose sight of these two vital facts in their interest in statistics, reports and machinery. The hour has now come to put the emphasis where the emphasis belongs—on our intangibles, our immeasurables, our imponderables; on those spiritual values without which fraternities can today present to a tortured world no excuse whatever for their continued existence.

Who knows but that our whole fraternity system has "come to the kingdom for such a time as this," has at last been given the opportunity of proving the value of its past contribution to education and its right to continue to serve as a laboratory of forth-right living? We can and must today enlist our members in a holy crusade for the finer things; we can and must make them see that ideals are the only hope of our war-torn race. We are ready to say with the English soldier-poet, "Now God be thanked Who hath matched us with this hour!"

Interfraternally submitted,

THE WAR COMMITTEE

Hamilton W. Baker
Bernard R. Kennedy
William L. Phillips
Hubert M. Poteat
Delos Smith
C. F. Williams
Cecil J. Wilkinson, *Chairman*

Editorial Comment

The various fraternity chapters over the country are faced with a very unusual condition, and one which could well prove disastrous if they do not guard against all possibilities. There are many situations and conditions, which we must consider from all angles if we hope to bring our chapters through this war.

First of all is the replacement problem. In order that a fraternity be successful it must be constantly replacing its members. This year, and for the next few years, this will be a particularly difficult task for several reasons, but it must be done better and more conscientiously than ever before. In all probability there will be a decrease in enrollment because of enlistment and drafting into the armed forces. Some boys who would have normally attended school will find a job in some defense industry, making good money, and the job offering draft deferment, and they will not attend college. On the other hand, with the speed-up program of most of the universities and colleges over the country, it will take a third more men per year, to operate fraternity houses on their present standard discounting entirely the rise in prices. This condition is caused by the fact that schools will graduate men in from two and a half years to three years after they first enroll, as compared with the normal four year course.

For those of you who are mathematical minded, it might be easier for you to grasp it if your rush problem were set down in an equation form. If so, here is what I believe is a good formula:

$$\frac{\text{Less Freshmen}}{\text{Same Number of Fraternities}} = \frac{\text{X Increased Prices} \times 1 \frac{1}{3} \text{ number of boys last year}}{\text{PLENTY OF HARD WORK}}$$

I would advise you to take the above as an accepted fact and not try and experiment for an easier way to solve your problems. There are times when initiative and experimenting is desirable, but not when the crisis is too near for any unnecessary gamble. Work hard and you will find that your chapter will weather the war.

During these times there are several new and untried arguments which you may use on those tough boys who give you difficulty. In every group of Freshmen there are a certain number of men whom you, and every other fraternity man knows would be an asset to any house, but for some reason or other, you just cannot seem to be able to get him to make up his mind. Now the conditions are on your side. First of all, he, like all students in school today, have many things on their minds besides school. Under such circumstances they must utilize all their spare time in thinking of other things rather than their own problems. If a student allows himself to sit in his room night after night and worry about his future, he will soon be in no mental condition to attend school and pass his subjects. Today, perhaps more than ever before, every boy attending college needs a fraternity. He will then have something to think about, something to work for, something to take his mind off his personal troubles and worries. He will have other people with whom to associate who will have a common problem, and who have a personal interest in him and they want to share his troubles with him. This problem will be the deciding factor to many a young man who would not have joined a fraternity under normal conditions.

Another factor which might be used when talking to a prospective pledge is the fact that it will probably be cheaper to live in a fraternity than outside. Food is advancing in price every day, and will probably continue to do so during the next few years. True, the fraternities have to pay the same prices as the restaurant owner and the boarding house operator, but the latter wishes to realize a profit, whereby the fraternities merely hope to break even. Rents are also advancing, so it is logical to think that the boys who have rented a room out in town someplace will soon have to be paying more for the same room. In a great majority of cases rents will not increase for fraternities, because they either already own their house, or they are buying it at a specified amount each and every month under contract. The other item of expense of a fraternity, namely dues, should not increase with the cutting down on social activities which is sponsored by practically all the colleges. All in all, a man should be able to live cheaper in a fraternity during the next few years than he can live outside, and of course, live under much more pleasant and beneficial conditions.

As I travel around to the chapters, I have the question asked me, "Do you think fraternities during the next few years should lower their standards and take a few men whom they would not have taken under normal conditions?" I am always compelled to answer that question, "Yes, with reservations." With fewer men to rush and with higher fixed costs, and with the fact that you will need a third more boys in your house each year in order to counteract the three year graduation, and then to assume that all the chapters on each campus will survive the war, the only way possible to accomplish this is to open up new fields, take in some of the boys that are not quite up to par, and hope that you can polish them up to your level. I do not mean by this to go out and pledge every Tom, Dick and Harry, but I do mean to take some of the borderline cases. Work a little harder on those boys who are undecided as to whether or not they wish to pledge. Perhaps you will not be able to pledge all men who had a good scholastic record in school, but will have to take some borderline students, hoping to assist them sufficiently in the art of studying that they will be able to stay in school and graduate.

After you do have your men for the year, you must do everything possible to see to it that you keep each and every one of them. Merely pledging a man, and moving him in the house, will not assure you of making your budget requirements. Furthermore, when making out your budget, you must keep in mind the many possibilities which may arise, and keep all expenditures at a minimum. Instruct your cook to economize even more than she is at the present. Watch unnecessary expenditures and waste. Curtail, but not abolish, social activities. You can receive as much enjoyment and entertainment out of an inexpensive dance or party, as you can out of an elaborate one. Watch your personal expenditures, and see to it that you do not waste any of your surplus assets, which might well be converted into assistance for the government to win this war.

If each and every individual member of all fraternity chapters over the country would take this editorial seriously, follow it to the best of his ability, work and work harder than he has ever worked before, I am convinced that this would be the beginning of a Victory campaign for fraternities, which would help greatly in our National Victory Campaign.

WORK, ECONOMIZE, SAVE AND THINK AND VICTORY WILL BE OURS!

- - ALUMNI NEWS - -

Marriages

Bro. Robert Gleason, Gamma, '44, and Miss Ethel Haltermann were married on May 10 at the First Presbyterian Church in Albany, N.Y. Bro. and Mrs. Gleason will reside in Albany until Bob graduates from New York State College for Teachers.

Bro. Malcome Haines, Mu, '43, was wed to Miss Harriett Anderson of Meadville, Penn., on May 29. The ceremony was performed by Bro. Haines' father at Corry, Penn. Mr. and Mrs. Haines will reside at Ann Arbor during the coming year while Malcome finishes work on his degree at Michigan.

Bro. William Walton, Nu, Ex '42, and Miss Dorothy Collins of Frankfort, Indiana, were married in Indianapolis, Ind., on May 16. Bill is connected with the F.B.I. in Washington, D.C.

Bro. George P. Donahue, Delta, '40, was married to Miss Teall Tobinson of Rochester, N.Y., during January of this year. The Donahues are now living at 190 Rich's Dugway, Brighton, Rochester, N.Y.

Bro. John F. Ling, Nu, '38, and Miss Mildred Thomas were married February 1, 1942 at the Trinity Methodist Church, Madison, Ind. Dr. and Mrs. Ling will live in Indianapolis, Ind., while John finishes interning.

Bro. John B. Spencer, Epsilon, '39,

married Miss Annabelle McAlpin, May 9, 1942 at the Greenwood Christian Church, Greenwood, Ind. The Spencers will soon move to Rochester, N. Y., where John will enter the Colgate School of Divinity.

Births

Mr. and Mrs. Joe Choborda, Delta, '37, announced the arrival of a daughter on February 15, 1942. The Chobordas live at 20 Chestnut Ave., Irvington, N.J.

Mr. and Mrs. Robert E. Reid, Delta, '35, received a daughter on January 26. They live at 15 Kingsland Place, Babylon, L.I., N.Y.

Mr. and Mrs. Jay W. Woods, Eta, Ex '42, became the parents of Miss Janet Woods on April 22. Home to them is 703 N. Grove Ave., Elgin, Ill.

Mr. and Mrs. Stanley Jones, Lambda, '26, announced the birth of their second child: Stanley Wilton, on March 24, 1942, at Seattle, Wash.

Mr. and Mrs. Urban V. Pflum, Omicron, '31, announced the arrival of their second child, Stephen Vincent, on April 25. The Pflums live at 8500 N. Michigan Road, Indianapolis, Ind.

Mr. and Mrs. Norman Stanley, Theta, '34, became the proud parents of Miss Patricia Elaine on Sunday, May 17. Norm is in the wholesale flower business and lives at 3929 N. Illinois St., Indianapolis, Ind.

Chapters

Alpha

Middlebury

ELECTIONS:

At the last meeting of Alpha elections were held. Pete Nikitas took over the helm from Cappy Yeomans. Pete has been an outstanding man on the campus, member of the interfraternity council, member of the men's assembly, and on various committees. This year he was elected speaker of the men's

Pete Nikitas, Consul of Alpha and B.M.O.C.

assembly, a position which he can handle very well. Pete was previously Junior Tribune and social chairman. Tom Kellegrew from Brooklyn was elected Senior Tribune which has been held vacant since Consul Ted Russell was hired by Uncle Sam. Tom has done much for the House, and we especially know him as a chemistry whiz. Bill Neale was elected Junior Tribune previously held by Consul Nikitas. Bill

is from Middlebury, Conn., and is known on campus as a member of Midd's choir and assembly. Bob Klein was elected praetor and succeeds Bill Meikle at keeping the records. Ray Walch was elected to the sophomore position. Ray was outstanding in Frosh football and is coming to be one of the so-called well known personalities on campus. Larry Gagnier was elected pontifex to succeed Cliff Fulton. Larry is from Williamstown, Mass., and is active in the Midd choir. However, we feel that Larry will soon be with Uncle Sam in the fighting forces.

Pete Nikitas, Ed Adams, and Bill Neale, were elected to represent KDR in the men's assembly. Lew Ensinger is next year's rushing chairman. Lew is going to have a tough time. Rushing rules have been greatly revised due to the present emergency and consequently rushing will have to be done in no small degree throughout the summer. But we feel confident Lew can handle the situation well.

FORMAL PLEDGING:

Last Tuesday night formal pledging was held for the new pledges. Those who were pledged were: Art Kelly, '45, from Torrington, Conn.; Gus Gustafson, '45, from Proctor, Vt.; and Jean Hebert, '44, from Holyoke, Mass. These men will be formally initiated next year.

SPORTS

KDR fell in ambitions for the tennis trophy by dropping their first match to Chi Psi. Baseball saw a more exciting and a more successful season. After winning from the Sigma Alphas 22-15 due to a final last inning spurt and under the superb pitching of Tony Wishinski backed with at least a dozen or so errors, Alpha met the DUs, a powerful nine. This time we weren't

so fortunate, losing to them 5-4. However, it was a much better played game all around. Wishinski held the helm again, and was also leading hitter. The final game was with the Theta Chis. Alpha came out on top, 9-4. Those men who played were: Kugy Klein, Ferd Ensinger, Sailor Robinson, Lew Ensinger (captain), Tony Wishinski, Al Jelts, Bill Neale, Cliff Fulton, Bob Klein, Jean Hebert, Bill Mickle, Squire Lorini.

SOCIAL:

The last and most successful social event of the year was the House formal. Under the leadership of Ferd Ensinger, new social chairman, the formal culminated in a glorious success. Many of the gang had imports and old man weather was good to us—result?—a swell time! The formal was held in the House instead of the Inn as in previous years, and was much more successful. You guys out there at Eta, Mu and Lambda should see Vermont in the Spring!

SPECIAL:

That's all for this year gang. Exams are on top of us, and the midnight oil is burning. See you all at the convention. And just a question? What's wrong with you fellows out there Pi and Gamma? We want to hear from you! And to you Upsilon—you've lost a lot of men but keep up that old spirit! Let us know how things come out!

ROBERT M. KLEIN.

Beta

Cornell

A new crew takes over the administrative duties of our chapter. The annual election produced the following worthy men as officers: Roy Edward Herrmann, Consul; Stanley E. Smith, Junior Tribune; Alexander Kopycznski, Senior Tribune; Robert Neureter, Praetor; Fred C. Wall, Centurion; Carl O. Kohl, Custodian; Bernard C. Smith, Proprietor and Athletic Man-

Roy Herrmann, Consul of Beta
Just in from a Lacrosse game.

ager; Rushing Chairman, Peter Gerdinus Millenaar (Pete enjoys that middle name); and John Burke, House Manager. The enthusiasm shown in the first meeting held under the leadership of the new officers, seems to indicate that our chapter will go a long way this coming year. Our Consul is well known on the campus, as he is a member of the Glee Club, Varsity Lacrosse, Swimming Club, and the Junior Blazer Committee. We have a great deal of confidence in Roy's leadership, and we feel certain that he will do a good job.

INITIATION:

We have also initiated six new men, Jim Nastasia, Vail Foy, Robert Xides, Anthony J. Roperti, Joseph File, and George Briggs. Jim and Vail are soph-

omores in the College of Arts and Sciences, Bob is a freshman in Hotel Administration, Tony is a sophomore in Pre-Med, Joe File is a sophomore in the College of Civil Engineering, and George Briggs is a sophomore in the College of Agriculture. We are sure they will all be a credit to KDR.

SOCIAL ACTIVITIES:

The date was April 24, and our house was as neat as a pin. A tense atmosphere pervaded as everyone waited for the arrival of the first date. It was time for Spring House Party and what a party. Everybody had a wonderful time. Glenn Gray and Will Bradley supplied the music for the Navy Day Ball. A picnic at Treman Lake occupied Saturday afternoon, and a dance at the house took care of that evening. Come Sunday morning and a disconcerting silence reigned in a house that had echoed all sorts of calls and songs but a few hours past. The girls had departed and the boys were settling down to a week of recuperation.

INTRAMURAL SPORTS:

With but one loss in six starts the KDR softball team meet a hard hitting Sigma Nu outfit in a game which was to decide the championship of our league. For four innings, under the effective pitching of our ace moundsman, Chuck Clements, we lead the boys from Sigma Nu by three runs. Then came the disastrous fifth inning when Sigma Nu scored 10 runs. We couldn't overcome that lead and the final score was 17-7. But then as the Dodgers and their fans always say, "Wait until next year."

BERNARD C. SMITH.

Gamma *New York State College for Teachers*

ELECTIONS:

At a recent meeting Gamma elected the following men to offices for the coming year.

Consul—Jack Smith, '43. Tall, dark, and —; well, tall and dark Jack, who hails from Middletown, N.Y. (He's really not bad looking either).

Senior Tribune—Robert Leonard, '43. "Loopy," the erstwhile Saranac Lake flash, now calls Rochester his home. He is also one of the ace (?) pitchers of the Gamma intramural softball team.

Junior Tribune—William Marsland, '44. (Being very modest (??), I will refrain from slamming myself or patting myself on the back, except to put in a plug for beautiful (?) Long Island. I come from Amityville.)

Now—the man you've all been waiting for (or looking for?), the man who collects the money and pays (?) the bills, the new Quaestor—George Hudson, '43 (the girls call him "Pinky") from Southhampton, L.I.

The man who writes the minutes, the man with the beautiful handwriting (we hope he can re-read it, even if we can't), Herman Blumel, '44, also from Middletown, N.Y.

Another writer: Ray McNamara, '45, Proprietor. He may write with his left hand, but we hope he will be *right* in there scribbling for the *QUILL AND SCROLL* next year.

Centurion—(the guy who squeezes your hand at the beginning of each meeting), Curtis Pfaff, '45 (?) of Carthage, N.Y. Curt says Watertown is just one of the many suburbs of Carthage.

Custodians—Harry Baden and Zolie Privett, the strong men (we hope). Anyway, throwing chairs around before each meeting will get you in shape for the Gamma intramural football team in the Fall).

Representatives to Interfraternity Council—Owen Bombard, '43, and Bill Marsland, '44.

Last, but certainly not least, is Collin Barnett, '45, our new Pontifex, who hails from Hawthorne, a suburb of New York City.

NEW BROTHERS:

At a formal initiation conducted by Consul Leslie Graves, '42, at Gamma earlier in the Spring, six men became Brothers of Kappa Delta Rho. They are: Harry Baden, Collin Barnett, LeRoy Groff, Ray McNamara, Curtis Pfaff, and Zollie Privett. All are members of the class of '45.

At this meeting Edwin Casler, '42, was also initiated as an honorary member of Gamma.

SOCIAL EVENTS:

"He dood it!" Congratulations to Bob Gleason, '44, and his blushing bride, Ethle Haltermann, who took the plunge in a simple ceremony at the First Presbyterian Church on Sunday, May 10, 1942. We wish them both happiness.

Will he "dood it"? Also expected is the marriage of Ruth Keeler to Brother Herb Oksala, '41. Rumor has it that this event will be held on May 31. (It has been suggested that the ceremony take place in State's Page Hall auditorium so that all their friends can come).

Bill Forrest, '44, who left school last winter, is now with the United States Marines. He recently was on duty helping hold the crowd back from movie stars entering a hotel. At this time he was fortunate enough to be able to dance with Eleanor Powell, famous Hollywood dancing star. (We hope Bill did State, Gamma, and himself justice by keeping off of her feet, although with such a partner, that should have been easy.)

The first of our series of Spring dances was an affair to which Potter Club, another major fraternity on the State campus, was invited. The proverbial "hatchet" was buried for the night and a feeling of good will prevailed so that a good time was had by all.

Later in the Spring another party on the scale of a "rush" party was held for just the Brothers. Entertainment

included moving pictures presented in the "dorm theater" on the third floor (commonly called the attic). Also at this party each girl received a gardenia, and refreshments consisted of soft drinks and doughnuts.

Winding up the Spring social activities for Gamma was the annual Indian Ladder picnic. Softball, climbing, roasting hot dogs, and, shall we say, "other diversions" caused the time to pass at an all too rapid rate. At 8:45 the bus horn blew, the "diversions" were interrupted (but were continued on the ride home), and at 9:00 the bus left for home ending the outing all too soon.

ORCHIDS, ETC.:

To Les Graves and Ed Holstein, Seniors, go well deserved praises for their efforts in writing a "fight" song for SCT. Their composition was introduced to the State Student Association recently and scored an immediate success. The association unanimously adopted it as the official fight song of our Alma Mater.

VISITORS WELCOME:

Gamma was pleased to be host to Brothers George MaKibbin of the Canal Zone and John McCreary of the Philippine Islands when they stopped in Albany for a short visit a few weeks ago. Both are members of the class of '44 of the Zeta chapter of Kappa Delta Rho at Penn State.

SPORTS:

Representing Gamma on the intramural softball team are Brothers Beyer, Blumel, Graves, Holstein, Leonard, McNamara, Marsland, Meek, and Merritt and Pledges Verrey and Stone. At the time of this writing the team record is two wins and three losses. With a little more spirit and a few breaks, we may finish the remainder of our schedule successfully.

"Dutch" Schulze, '42, was a member of the State varsity tennis squad, but he was forced to give up his position in favor of money in the form of an afternoon job.

LEONARD AND BOMBARD HONORED:

At recent Moving-Up Day ceremonies Brothers Bob Leonard and Owen Bombard, both members of the incoming Senior class, were honored by being "tapped" for Myskania, State's senior honorary leadership society. Bombard will be President of the Men's Athletic Association for the coming year and he has also been appointed by the faculty as the new Director of Men's Freshmen Camp. Leonard, although he holds no class offices, is definitely one of the outstanding men of his class.

Results of various class and organizational elections were also disclosed on Moving-Up Day. Curt Pfaff was re-elected Vice-President and Collin Barnett was elected Treasurer of the class of '45. Bill Marsland, '44, will be Bombard's understudy, having been elected Vice-President of MAA for the coming year.

Russell Blythe, '44, has been promoted to the Junior photography staff of the State yearbook, the Pedagogue.

Owen Bombard, Herbert Leneker, and Michael Perretta, Juniors, distinguished themselves by becoming members of Pi Gamma Mu, a national honor social science society which has its New York Delta Chapter at NYSCT. Leneker will also be Publicity Director of the Forum of Politics for the coming year.

ALUMNI:

Steve Bull, '41, who was inducted into the Army earlier this year, has been advanced to the rank of Corporal. He was in Albany several weeks ago for a short visit.

Bob Stevens, '41, has transferred from the Army into the Air Corps. In his service of about a year in the Army he had advanced to the rank of Tech. Sergeant. While awaiting call to his new post, Bob is enjoying a ninety day furlough.

BILL MARSLAND.

Delta

Colgate

GRADUATION:

On May 10 Delta's eleven grave old seniors will pass out into "the cold wide world." When the chapter house opens on May 18 for the summer trimester, Bull Lauroesch, Larry Barr, Stan Chapman, Russ Ide, Buzz Hewitt, Chuck Conn, Bobby Vlachos, Herb Thompson, Howie Sprow, Joe Brewer, and Don Rice will be among the missing.

Since these men were inducted, December 14, 1939, they have been a cardinal contribution to the fame and prestige of Delta on the Colgate campus. The class of '42" boasts two members of Konosioni, the senior honorary society, a varsity team captain, and a varsity sport manager.

Colgate's third war class was put to a test by a speeded up program put

Delta's 1942-'43 Consul, Dick Merideth

into effect late in January in order that Colgate men may engage in the war effort at the earliest possible date. Even now several members of the original class of Delta 1942 are in the field with the armed forces. The remainder of the class expects to follow very soon. Bobby Vlachos has already enlisted in the Army Air Corps and is on leave for graduation. Chuck Conn and Don Rice expect to see action with the Army flyers also. Stan Chapman has accepted a commission in the Army Medical Corps Reserve and will proceed in medical school at Long Island Medical School immediately. Although rejected in the Reserve Officers Candidate Class of the Marine Corps, Bull Lauroesch expects to be accepted as a private in that arm of the forces.

The gap made by the graduation will be filled by the fifteen members of the class of '45" who recently pledged Delta during the spring rushing season. We of Delta look forward to a pleasant summer in the beautiful Chenango Valley, but regret the loss of the fellowship of those who are passing into the Alumni Chapter.

ROBERT L. BISHOP.

Epsilon

Franklin

SCHOLARSHIP:

With the issue of reports on scholarship for the second six weeks' period, we are happy to find that Epsilon leads all men's organizations on the campus in this field. This record was and is being upheld by the influence and program of study assigned by Brother Rue Gene Starr.

VARSITY SPORTS:

Epsilon is proud of its brothers who are upholding the ranks on the baseball diamond and enabling Franklin College to keep its standing in the competition. Brothers Paul Hendrix, John Duncan, Gene Fisher, Ray Hollandbeck, and Wendell Keller are all pos-

sessors of varsity positions on the squad and have turned in some very fine performances this season among which was the recent victory over Butler University.

SOCIAL ACTIVITIES:

One of the most novel and entertaining house parties ever held at Epsilon was the Haunted House Hop on May 2. The affair was under the supervision and direction of Brother Bob Lewis. An eerie atmosphere was exemplified by spiders, spider webs, ghosts, sputtering candles and other characteristics of the house of horrors.

A wiener roast was scheduled for May 8, but it has been postponed until a later date due to unfavorable weather conditions.

RUSHING:

Epsilon is accepting new policy this year in the matter of rushing. Instead of the traditional rush captains a committee has been appointed to precipitate the rushing and pledging activities of the chapter. We hope this procedure will facilitate a more engaging program.

ELECTIONS:

The election of officers to Epsilon was held Monday night, May 4. The following brothers will hold offices in the chapter during the remainder of this semester and the fall semester of 1942: Consul, Wendell Keller; Senior Tribune, John Duncan; Junior Tribune, Arthur Day; Quaestor, William Ziegert; Praetor, William Ziegert; Proprietor, James Early; Pontifex, Michael Rubosky; Custodian, Paul Hendrix; Centurion, Robert Volland; Social Chairman, Robert Lewis; Rush Captain, Wendell Keller and committee of four; Senators, Russell Priest, Abie Gill, Alton Snyder; Scholarship Chairman, Paul Hendrix; Faculty Advisor, Dr. Powell.

ALUMNI NEWS:

The marriage of Brother J. B. Spencer, '40, son of Dr. William Gear

Spencer, president of Franklin College, to Miss Annabelle McAlpin, has been recently announced. Brother Spencer has been taking post graduate work in philosophy at Indiana University.

GENERAL:

Epsilon was honored recently to entertain the presence of our Executive Secretary, E. Mayer Maloney. Brother Maloney spent a few days with us and suggested a few minor improvements for the betterment of the local chapter.

JAMES L. EARLY.

Zeta

Penn State

NO REPORT

Eta

Illinois

NEW CONSUL ELECTED:

Eta Chapter held its spring elections in a formal meeting, Monday, April 27. Virtually unopposed, Donald E. Merriman, '43, was elected Consul. Don is in the School of Fine and Applied Arts, majoring in Industrial Design. Since his initiation, February 2, 1942, Don has been very active in all affairs concerning Eta. He was almost immediately appointed Social Chairman, and while in this office planned three wonderful dances, one of these the Spring Formal. Automatically, on his election as Consul, Don became an Inter-Fraternity Council representative.

NEW PRESIDENT ALSO RUSHING CHAIRMAN

Though it may seem strange, Eta Chapter recently chose its new Consul to be Rushing Chairman for the summer. Since most of the other fellows will either be attending summer school or working, this choice was the most logical one. Brother Merriman possesses the drive and personality which this important office requires, and is willing to work the whole summer to garner new pledges for next fall. The new Rushing Chairman, who lives at 255

South Audubon, Indianapolis, Ind., urges that everyone, alumni and active members alike, who knows of prospective pledges coming to Illinois, send in their names and addresses immediately.

OTHER OFFICERS ELECTED FOR NEXT YEAR:

Assisting Brother Merriman in guiding the chapter through these critical and difficult times are the following officers: Junior Tribune, Ralph G. Hankermeyer; Senior Tribune, John Cape; Praetor, Robert V. Dexter; Propraetor, Clarence (Buss) Dunn; Quaestor, Lyle Appuhn; Pontifex, Clarence Dunn; Centurion, Robert C. Seib; and Custodian, Walter Jones.

Brother Appuhn was chosen as the Chapter's delegate to the Kappa Delta Rho National Convention, to be held May 30, at the Hotel William Penn in Pittsburgh.

ETA HAS SIX SENIORS:

Eta has six seniors this spring, four of whom will get their sheepskins in the June 1 Commencement. Those who are ending their undergraduate careers at that time are George Nibbe, Edward C. Tudor, Ralph Haag, and Charles T. Curtis. Two others, just a little short of graduation, are James Dippold and Robert M. Stacy. Brothers Nibbe, Tudor, and Curtis are electrical engineers, while Brother Haag, retiring Consul, has majored in entomology.

BROTHER HOOGSTRAAL TO GO TO AFRICA IN LATE AUTUMN

Brother Harry Hoogstraal, '36, graduate student and also an instructor in Entomology at this University expects to have another busy summer before him, just as in previous years. Harry will take the preliminary examinations for a Doctor of Philosophy Degree in the middle of the summer. Immediately after this, Brother Hoogstraal will make his fifth expedition to Mexico, where he will study and do research work for a month. Then, in the late autumn, he is scheduled to

leave for Africa where he will do medical research for the government. Harry would like to hear from any of his Kappa Delta Rho brothers and will correspond with those who write him.

SPRING FORMAL, MAY 8th

The number one event on the Eta social calendar—the annual Spring Formal Dinner Dance—was held on the evening of May 8 at the Chapter House. Bud Roderick's orchestra, one of the most popular on the campus, furnished the music, playing sweet and gentle during dinner and then increasing in tempo and volume when the dancers took the floor. The house was beautifully decorated with bright colored streamers which waved in the breeze coming through the open windows. In the fireplace separating the two downstairs parlors, was a lovely fountain, partly covered with flowers and dark green vegetation.

ETA MEN ON THE VARSITY TRACK TEAM

Mention was made in the last issue of QUILL AND SCROLL concerning Eta's members on the varsity track team. In meets this spring, these men have further distinguished themselves as the following short account of a recent meet readily indicates:

Dunn: First in 2 mile, 3rd in mile, 4th in Big Ten Indoor 2-mile.

Seib: Second in mile.

Crane: Third in high hurdles, second in the low hurdles, second in the pole vault, and third in the high jump.

Grenias: Third in 100-yd. dash.

NEWS FROM ALUMNI:

We recently heard from Brother Frank Cronican, '39, a former Eta consul, who is now stationed with the U.S. Air Corps at Kelly Field, Texas. Frank writes: "I'm a flying instructor at the Air Corps Advanced Flying School here at Kelly Field. Graduated from Kelly Field in July, 1940, and have been instructing there ever since. Would be glad to see anyone down

San Antonio way—just call Section II, Kelly Field."

Leif Olsen, '40, also tells about his experiences in the army. "I am at present a student in the Cavalry School at Fort Riley, Kansas, but will return to my regiment in another three weeks. I have had all sorts of jobs during the last year and a half—all the way from Regimental Supply Officer to Troop Commander." Leif is now with the 9th Cavalry at Camp Funston, Kansas.

Eta alumni in the armed forces include: Chuck Russel, '41, U.S. Marines, Quantico, Va.; Second Lt. Robert E. Ferris, '39, Ft. Sill, Okla.; Jerome Van Gorkham, '39, Naval Intelligence; Lt. Frank M. Muller, '41, Armored Forces, Ft. Knox, Ky.; Glenn Summerfelt, '42, Great Lakes Naval Training Station, Great Lakes, Ill.; Jack Deegan, '41, U.S. Medical Detachment, 11th Inf., Ft. Custer, Mich.; Leslie L. Reid, '27, Naval Air Corps, East Greenwich, R.I.; and Robert Kaiser, '41, Army Quartermaster Corps, Houston, Tex.

CLARENCE DUNN.

Theta RUSH:

Purdue

Since the new semester started May 4, we have been carrying on an intensive rush program. Many of the Indiana high schools have let those who wanted to come to Purdue finish their work at the end of April so as to let these men gain the one semester. At the close of last semester, we pledged Robert W. Schmidt, Sci '45, Eldora, Ia.

ELECTIONS:

Elections were held the last of April. The new officers are: Consul, William Weslow; Senior Tribune, William Clark; Junior Tribune, Robert Ronksley; Praetor, Alex Johnson; Proprietor, Richmond Neff; Pontifex, William Fullerton; Quaestor, Burton Hine-line; Custodian, James Webster; Centurion, William Scheer; Social Chair-

man, Donald Corp; Athletic Manager, Cletus Tepas; Soph. Financial Committee Member, John Kraas. Brother Ronksley found that he would be unable to attend the summer session, so William Fullerton was elected to replace him as Junior Tribune. Brother Fullerton resigned his position as Pontifex, and John Gilley was elected to that office.

SOCIAL:

In the evening of Friday, May 1, our pledges took part in the annual wagon fight with the pledges of Phi Kappa Tau. It was the Phi Tau's turn to get the wagon and defend it. Our men were unable to pull the wagon out, but we claim the victory in that our pledges spent fewer man-minutes under the mud than the opponents.

The house has held two radio dances since the first of March. The first was attended by a large crowd, and was considered a success. The other was held the week after Prom, and consequently there wasn't such a good turnout.

ALUMNI:

Joe Lynch, '39, is in the Philippines according to the last report.

George Peck, '40, was married on May 8.

Capt. Pat McIntyre received the Distinguished Service Cross for bombing in the vicinity of Java.

A correction in address has been received from George E. Dennis, '36. He now lives at 221 West 38th St., Kansas City, Mo.

Last month, Brother Bill Clark made a plaque with the names of all the men from Theta who are serving in the armed forces. This plaque is on display in the Great Hall.

INTRAMURAL SPORTS:

Although we didn't take any honors in interfraternity tennis, we did have a pretty good team. However, our three man chess team placed second in the interfraternity chess tournament.

DICK NEFF.

Iota

Bucknell

NEW OFFICERS:

The Iota Chapter recently held the election of its officers for the first semester of the 1942-43 school year. They are G. Barr Westman, '43, Consul; Senior Tribune, Alan English, '43; Junior Tribune, William Huff, '44; Praetor, Harry Powell, '44; Centurion, Robert Koble, '44; Propraetor, William Griffiths, '43; Pontifex, William Andrews, '44. Bro. Huff also has been named rushing chairman for the coming year.

G. Barr Westman, Consul for the coming year at Iota

PLEDGING:

Kenneth Kressler, '43, is the latest addition to Iota's pledge group. Ken, who is a chemistry major at Bucknell, hails from Nanticoke, Pa. Since pledging Ken has proved himself to be quite a comedian. Many actives suffered from his refreshing humor at the

The actives and pledges of Iota Chapter. 1st row, l. to r.: Jack King, '42, Harry Powell, '44, Kenneth Maust, '43, Alan English, '43, Alan Vitray, '45, Donald Ready, '42. 2nd row: Robert Koble, '44, William Griffiths, '43, Paul Munson, '42, Mark Slingwine, '44, William Drout, '42, Philip Saunders, '45, Clifford Manella, '42. 3rd row: Daniel Collinson, '42, Gilbert Holt, '42, William Andrews, '44, James Helt, '43, G. Barr Wertman, '43, William McGuire '42, and William Huff, '44.

House party banquet where he was in charge of the pledges' part in the program.

SOCIAL ACTIVITIES:

Iota staged one of the most successful House party weekends in its history over the weekend of May 1 and 2. A formal dinner was held in the Hotel Lewisburger on Friday evening. Bro. Edward Knights, '35, of South Williamsport, Pa., was the principal speaker of the evening. Bro. Knights is a member of Iota's corporation. Consul Jack King, '42, was master of ceremonies for the affair. The pledges presented a short program during the evening.

Following the dinner, the group returned to the Chapter House where they danced to Tommy Donlin and his Pennsylvanians from Wilkes-Barre. The House was decorated as a ball-

room with orange and blue crepe paper. Bro. and Mrs. Rudolph Peterson and Bro. and Mrs. Norman Lowry were among the chaperons for the evening.

On Saturday afternoon the House members and their dates enjoyed a picnic at Half-way Dam, about 20 miles from Lewisburg. The enjoyable weekend ended Saturday evening with a semi-formal dance at the chapter house

Brothers of Iota and their dates enjoy a picnic at Halfway Dam.

with Tommy Donlin and his orchestra again providing the music.

Among the Alumni members who returned for the House party weekend are Victor Shvedoff, ex '42, Robert Bonn, '37, Eugene Tedesco, '40, John Worth, '37, Robert Minium, '40.

On May 13 the annual pledge banquet of Iota was held at the Chapter House. Mr. Paul Hightower, secretary to President Arnaud C. Marts of Bucknell, was principal speaker. Consul Wertman was in charge. During the program the pledges were in charge of the program which was staged by the active members. Following the meal an informal discussion was held with the several faculty members who attended the banquet.

The annual Iota stag outing was held Saturday afternoon, May 16. With Bro. Al English in charge, the group spent an afternoon of mirth along Buffalo Creek about two miles from Lewisburg. Thus ended Iota's social season for the current year.

SPORTS:

Iota's most successful sports campaign this year was in Intramural volleyball with the .500 average. The team won three and lost three contests. Bros. Bill Andrews, Paul Munson, Gil Hold, Bud Wertman, Al English, and Ken Maust made up the first team with Bink Huff, Bob Koble and Harry Powell frequently breaking into the line-up.

SCHOLARSHIP:

The Iota Chapter is still retaining its scholastic superiority on the Bucknell campus. During the first semester of the 1941-42 school year, Kappa Delta Rho ranked first among the national fraternities on the campus with an average of 77.16%. Although ranking first among the nationals, it ranked third on the campus as a whole as Delta Sigma and Alpha Chi Mu, two local fraternities, ranked first and second respectively.

ACTIVITIES:

Pledge Phil Sanders, '45, has just completed his spring training with the Bucknell football squad. Phil plays guard with the Bisons, and promises to be a mainstay on the varsity during his college career.

Bro. Bill McGuire, '42, has just completed serving as president of the Bucknell chapter of the American Society of Chemical Engineers.

Bro. Bill Drout, '42, has secured a job with the Standard Oil Company of New Jersey. Bill will assume his new duties as a chemist following graduation on May 23.

Bro. Bink Huff, '44, has been appointed as the junior member of the Bucknell Interfraternity Council.

Bro. Bill Griffiths, '43, has been elected president of the Bucknell Interfraternity Council and has been elected president of Sigma Alpha Kappa, an organization of the men students working in the dining halls of the University.

Pledge Al Vitray is working in the office of Dean R. H. Rivenburg.

ALUMNI:

Jack Clark, ex '42, now residing in Washington, D.C., will be married on July 5 to Miss Rose Mary Foster of Arlington, Va.

Bro. John Worth, '37, is working for the Navy Department in Washington, D.C.

Bro. Harle King, '40, is now serving with the United States army in the Hawaiian Islands.

Bro. Vic Shvedoff, ex '42, is employed by the Hercules Powder Co. at Franklin, N.J.

Bro. Bill Hood, ex '42, is now in the United States army stationed in Mississippi.

Bro. Bob Wall, '40, left late in April for the U.S. army.

BILL GRIFFITHS.

Kappa*Ohio State***NEW OFFICERS:**

This quarter Kappa elected for its new officers Howard B. Gardner, Consul; Bill Berry, Praetor and Proprietor; Walter Boyd, Quaestor; and Ollie Otcovsky, Pledge Master. These new officers took their posts on April 6, and we are sure that they will continue the good work of their predecessors.

FOUNDER'S DAY:

On May 2 Kappa celebrated her twentieth anniversary with a Founder's Day Banquet at the Chapter House. Only a few of the alumni got back because of tire rationing and long working hours, but some of the regulars came back. Charles Kauffman, head of the English Department at Kenyon and ex-president of the alumni association, presided at the meeting which followed the banquet. Other alumni present were Gordon Eldridge, Thomas Tilbrook, Ross Kramer, Ed King, Arthur Stilwell, Max Weaver, and Vernon Lein. At the election of officers Thomas Tilbrook was made President, and Gordon Eldridge was made Secretary-Treasurer of the Alumni association for the coming year. We were honored by the almost traditional visit of Del Kinsel of the Ohio State Fraternity Affairs office.

RUSHING:

Since the new term at Ohio State starts at the beginning of the summer, Kappa has been organizing and carrying out her new rushing plans. We are indebted to alumnus Max Weaver for his suggestions and help in organizing this campaign. On May 9 a trip was made into southern Ohio to contact the entering Freshmen which we thought would be good rushing prospects.

NATIONAL CONVENTION:

Bro. Jack Musolf was elected to represent Kappa at the National Convention in Pittsburgh. **BILL BERRY.**

Lambda*California***SPEED-UP PROGRAM
AT LAMBDA**

This semester has been more frantic than usual due to the speed-up program instituted by the university. The new order of things includes three semesters a year. The immediate effect which was felt severely by one and all was the cramming of finals into one week at the rate of two or three examinations a day. The new advisor, Bro. Harrigan, was reduced to a nervous wreck by having to take two finals one day and three the next. The last that was seen of him he had a vicious leer in his eyes and was tottering away to drown himself. It could not be ascertained what medium he was going to use for the purpose.

Individuals with bleary eyes, unkempt locks, and a bottle or two tucked under the arm can be observed slinking in and out of the house under the cover of darkness. Perhaps this can be attributed to the fact that a three-fold celebration is going on. Finals are over, Senior Week is in full swing, and most of the graduating seniors are renouncing their civil life to join the armed forces. Brother Ken Wolfe, the outgoing consul, is a second lieutenant in the army engineers, awaiting call to active duty; Brother Roger Fitz is in the University group of the Naval Air Corps, with the name of the "Flying Golden Bears"; Brother Carl "Ole" Carlson is in the Marines; Brother Jim Hicks, last semester's adviser and past consul, is commissioned in the Naval E.V.S. Brother Clarence Hillman will be a Navy Ensign under the V-7 program; Brother Bert Jameyson, the outgoing house manager, will be in the Air Corps as a second lieutenant. Brother Archie Cameron is on active duty in the Air Corps. Brother Bill Cameron will be using his engineering knowledge to build fortifications.

ENGAGEMENTS:

As if graduating and getting in the armed forces weren't sufficient cause for a mixed feeling of gladness and sorrow, four of the seven seniors felt the time had come to announce their respective engagements: Brother Ken Wolfe to Miss Madelyne Hatch, Brother Bert Jameyson to Miss Muriel Mugler, Brother Roger Fitz to Miss Mary Martin, and Brother Jim Hicks to Miss Mary Harnley.

RUSH:

What with the draft and graduation taking men right and left the remaining brothers, with the active cooperation of the alumni have embarked on a vigorous rushing program which will result in the most colossal and numerous increase in the ranks of Lambda Chapter of Kappa Delta Rho which it has ever experienced. At any rate we started spring rushing with a bang by inviting a group of high school seniors and junior college men to stay with us for the weekend. Ice skating, track meets, treks across campus, and midnightly snacks of coffee and doughnuts were enjoyed by all. With more and more rushees pouring in all the time and all the breathing room and sleeping room getting so filled up, yours truly had to betake himself to sleep in the backyard among the ashcans with the cats. When the grand, imposing, completely disarming finals on Saturday night came along, thirty or so of the alumni filed in after dinner to add their voices to the bedlam. We were entertained far into the night by a handwriting expert, or so he called himself, who could write any word upside-down, from the middle out, with both hands or any way you please. A magician also entertained us with some unique tricks. Rules forbid the pledging of high school students and we didn't. But we did pledge two men who are now enrolled at California, Ted Flodberg and Dell French. We expect quite a number of the boys who were

here for the weekend to join us during the summer, when the house and the University will be operating as usual.

FOUNDER'S DAY BANQUET:

On Saturday, April 25, 1942, there was held at the Palace Hotel in San Francisco, the Annual Founder's Day Banquet of the Chapter. All of the members, active and alumni, were present—if not in body, then in spirit. By the end of the evening, those that had been there in body were also present in spirit so that taken all in all, the affair was highly successful. The two speakers for the evening were Lt. Fred Nettel, Lambda, '38, and Wayne W. Lobdell, Lambda, '33. Lt. Nettel gave a precise account of the significance of the Panzer column in modern war. Fred is an instructor in the Department of Military Science and is well acquainted with the subject. A warning that there are tough times ahead and that we should cultivate a critical attitude, was brought out by Alumnus Lobdell, who recently returned from Europe. Brother Ken Wolfe was, for the second time, presented with the scholarship cup. After the speeches Brother Wolfe handed the gavel, sign of consulship, over to Brother White, who then introduced the new officers for next semester.

They are: Consul, Carrol White; Senior Tribune, William Douglass; Junior Tribune, Fred Hanson; Quaestor, Jules Lambert; Praetor, Duane D. Deakins; Advisor, Robert Harrigan; Custodian, Alvaro Rossi; Propaetor, Henry Kraemer; Pontifex, Wilfred Eldred; Centurion, Lewis Aaronson; Senators, Leonard Wall, Wayne Lobdell, and Asa Meddell.

This splendid array of men gives us renewed confidence that the coming semester will be as successful as the last, during which Brother Deakins was awarded with a junior appointment on the Election Board (the organization on campus which has charge of all the Student Body elections),

Brother White was made senior manager of the wrestling team, and Brother Coggins was given his letter in gymnastics.

HENRY KRAEMER.

Mu

Michigan

CHAPTER NEWS:

Brother James Crowe and Brother Kenneth Repola, who are room-mates at the chapter house, are now having a feud for the next week or two. The occasion being that both are running for the office of president of the Varsity Glee Club. They have resolved not to speak to each other for the duration of the electioneering, which makes it very quiet in their corner of the house. The members of the house are remaining neutral on the subject, because we know that the Glee Club cannot go wrong, regardless of which one of the two they elect. Good luck to both!

Brother Earl Barrett has been tapped for initiation into Alpha Nu of Kappa Phi Sigma, the honorary speech fraternity. This initiation will take place on May 5. Brother Twitmire, who was initiated into this same society last year, was just elected as the new president of the organization.

Brother Haines will be married to Miss Harriet Anderson on May 29, at Corry, Pennsylvania. The couple will make their home in Ann Arbor until Brother Haines has finished school. Brother Haines is advertising that they will have a room in their apartment to sub-let, are there any takers?

Spring in Ann Arbor is, of course, causing a rush on the sun-deck. But all is not idyllic as might be supposed, for Brother Repola has the annoying habit of attaching the hose to the nearest faucet and dousing the "sun-worshippers."

SOCIAL EVENTS:

At the radio-bridge dance on March 21, Brother Cuccia's record player gave a superb performance and helped make the affair very successful. A great mix-

ture of fruits was put together and made a punch that really had some "punch."

On May 16, the annual spring homecoming will be held. This year, instead of having the traditional dance, a picnic-party is going to be held on Grand Island in the Huron River. This should prove to be very interesting, and also very much fun for all those attending. As usual, on Sunday the 17th, there will be the annual baseball game, and the banquet. We hope to see as many of the alumni here as can possibly come.

PLEDGES:

Mu wishes to announce the pledging of six new pledges. They are: Richard Andrade of Birmingham, Michigan, Ray Gilmore, of Ann Arbor, Michigan, George Phelps, Jr., of Grosse Pointe, Michigan, Charles Raymond of Highland Park, Michigan, James Smith of Pittsford, New York, and Carl Weideman, Jr., of Grosse Point Park, Michigan.

FLASH!

At the last meeting of the Glee Club, elections were held and Kenneth Repola defeated James Crowe for the office of President. At the last meeting of the year, which will be on Thursday, May 14, Brother Repola will be installed in his office.

However, the executive committee of the Glee Club met on Tuesday night, May 5, and they appointed Brother Crowe as the business manager for the club next year.

EARL BARRETT.

Nu

Indiana

SOCIAL:

Due to the limited time, the social activities of the house have been reduced considerably. In the last month we had only one social event. This was a Radio Dance. All of the brothers claim it was the most enjoyable dance we have had this year. Our theme was *darkness*, and dancing.

PHI BETA KAPPA:

Louis Hadley Conn, Nu, '42

In our house we have one Hadley Conn, who last winter was initiated into Phi Beta Kappa, the highest honorary scholastic fraternity in the country. We are doubly proud of him since he achieved this honor while being a medical student, which is the toughest school at Indiana. Hadley leaves us this spring to go to the Medical School at Indianapolis. Hadley is also an "I" man making his letter in tennis.

RUSH PROGRAM:

On May 24, 25, 26, all the fraternal organizations at Indiana had a cooperative Rush Program. Three days were allowed for rush week which kept us hustling as we never have before. When Sunday evening came around we found that we had pledged five new men. We consider this a very success-

ful rush program, since there will be so few on the campus this summer.

SCHOLASTIC:

Our new proctor, Cecil Bachalle, devised a new plan for scholastic advancement. The active chapter was divided into two teams. The Blues were captained by "Banana" Bannister and the Golds by "Scruffy" Siffin. These two teams were to try to beat one another in scholastic average, the team that loses buys the *Beer* for the other team. If the average is above a certain average the Proctor buys the *Beer* for all. At the present the teams are running neck and neck.

SUMMER SCHOOL:

Summer school is now in full swing, due to the speed program at summer school. The number of men in the house has been greatly reduced by the many brothers that need a rest. The rest of us are carrying on with regular fraternal, social and academic activities.

EXTRA ACTIVITIES:

Nu Chapter recently had its election of officers for the summer session. Those elected are as follows:

Consul—John O'Brien; Senior Tribune, Bill Hohe; Pontifex, Bachalle; Propraetor and Praetor, Ted Hooker; Centurion, Pete Earley; Quaestor, Dan Bannister.

As spring comes around every chapter must say good-bye to its seniors who are graduating. We are no exception and so we must say farewell to Brother Foster and Conn. We wish them much success in life and hope that we will see them frequently.

Brother Walton, who is now working for the F.B.I. in Washington, is scheduled to be married May 16, in Indianapolis. The lucky girl is Dorothy Collins of Frankfort, Indiana.

TED HOOKER.

Xi*Colby***ELECTIONS:**

At a recent house meeting, Xi Chapter elected the following brothers to lead us during the following year: Consul, Robert C. Dennison, Jr.; Senior Tribune, Henry S. Tilton; Junior Tribune, Richard S. Goodrich; Quaestor, Paul C. Merrifield; Praetor, Ralph W. Hilton; Propraetor, Gordon T. Crook; Centurion, Gordon C. Patterson; House Custodian, Eugene T. Ellingwood, Rush Chairman, Donald T. Leach; Social Chairman, Philip C. Buck; Pontifex, James R. McCarroll. With the above officers, we feel that Xi will be able to make marvelous strides forward during the coming year, even with all the difficulties which face us due to the war.

INITIATION:

Plans for an initiation for all pledges into the bonds of Kappa Delta Rho have been made at some date prior to graduation, May 24. The following pledges are expected to join: Richard Goodrich, Gordon Crook, Eugene Ellingwood, Gordon Patterson and Donald Leach.

SOCIAL EVENTS:

Social Chairman Philip C. Buck, with the cooperation of the social committees of Delta Upsilon and Lambda Chi Alpha fraternities, were responsible for a very successful Spring Formal Dance, Saturday evening, May 2. The dance was held in the Alumni Building in conjunction with Delta Upsilon and Lambda Chi Alpha due to the necessity of a streamlined program at Colby this year. About one hundred and fifty couples attended and enjoyed dancing to the music of Lloyd Rafuell and his Georgians.

INTRAMURAL SPORTS:

The only intramural sports at Colby this spring are volleyball and softball. KDR finished second in the volleyball league and at present are having a mediocre season in softball with two games left to play.

VARSITY SPORTS:

KDR has two outstanding men on Colby's 1942 baseball team—Brothers Joseph D. Slattery and Robert C. Dennison. Brother Slattery is the captain and has as yet lost no games. Brother Dennison is an outfielder, our new worthy consul, and is batting well in the .300's.

The following men are representing Colby on the track team: Brother Ralph Hilton, a pole vaulter, Brother Richard Goodrich, a miler, and Brother Eugene Ellingwood, a middle distance runner.

THE SERVICE:

As yet there have been no men from Xi called to service, but the following men are subject to the draft in June: Harold L. Huntoon, Harry P. Hildebrandt, and Philip C. Buck. Brother Eero R. Helin has joined the U.S. Marines and will enter the officers' Training School the latter part of May. Brother Linwood E. Palmer, Jr., is joining the U.S. Army early in June. Brother Joseph D. Slattery has joined the U.S. Navy and expects to report for active duty before June 1.

SPECIAL HONORS:

Brother Linwood E. Palmer, Jr., was honored by the public speaking department on Recognition Day—he won more cash prizes than anyone in college and was also awarded the Elijah Parrish Lovejoy medal for meritorious work in public speaking.

Brother Charles Wm. Berry, Jr., has advanced further in Masonry by being allowed to join Mount Vernon Chapter No. 1 of Royal Arch Masons. At present Brother Berry is a 32nd degree Mason and a member of Kora Temple, Ancient Arabic Order of the Mystic Shrine.

Brother Robert C. Dennison was awarded a General Scholarship Certificate on Recognition Day, May 4, at a general assembly of the college, for excellence in scholarship.

The following brothers from Xi were honored by being invited to the annual Phi Beta Kappa dinner. Each year the local chapter invites the outstanding students of the college and who at that time are potential candidates for membership into Phi Beta Kappa. The men from Xi were: Robert C. Dennison, Jr. and Paul C. Merrifield.

ALUMNI:

Brother Paul K. Palmer, Xi, '37, has accepted a new position with the American Telephone and Telegraph Co. and at present is stationed in Providence, R.I.

Brother William H. Hughes, Xi, '41, is expecting to join the U.S. Marines early in June.

Brother Francis S. Johnson, Xi, '40, is an Ensign in the U.S. Naval Air Corps.

Brother Dwight K. Beal, Xi, '41, is an Ensign in the U.S. Naval Air Corps.

Brother James M. Bunting, Xi, '40, is teaching French in Deering High School.

Brother Craig T. Blanchard, Xi, '41, is working at the Todd Bath Shipyard in Portland, Maine.

CHARLES BERRY.

Pi

Gettysburg

INITIATION:

Our Spring term initiation was held Saturday, March 14. Pi is proud to announce that four pledges were initiated. They were Roger Kelly, '45, Minneapolis, Minn.; Walter R. Wolf, '45, Smithburg, Md.; Robert L. Klinedinst, '45, Red Lion, Pa., and Walter E. Garmon, Jr., '45, Baltimore, Md. Roger, Walton, and Walter are chemistry majors, while Bob is majoring in accounting.

RUSHING:

Since only four brothers came back at the beginning of the season, rushing was not very successful. However,

with the help of several of the alumni, the boys added nine pledges over the course of the year. Prospects for several more pledges look very encouraging yet this year.

SOCIAL:

The policy of the college in accordance with the short term was a Spring Panhellenic April 25. Because of the few members, an informal dance was not on the night preceding the big dance. House parties will not be held at any of the houses this year.

ACTIVITIES:

We are exceedingly pleased to announce that Pi Chapter acquired the Scholarship cup for the scholastic attainment. The Phi Sigs were dethroned after holding the cup for fifteen straight years. A great disturbance was created over the campus. The fraternity average was 1.785. Last year, KDR stood fifth and second in Greek standing for both semesters. Now that the cup for "Brains" rests in our house, every effort will be made to keep it there. The pledges have good marks, and the cup should be ours for a long time. The Interfraternity Council has to buy us a new cup, and we should have it soon.

GENERAL:

Edward Maddock, last year's Consul, accepts a commission in the army following the close of school. Eddie was a Cadet First Lieutenant in the R.O.T.C. ranks. His marks were the highest among the brothers last term. He will be sorely missed next year.

We also will lose Doctor C. Allen Sloat, Faculty brother and Pi Chapter Alumni Treasurer. Doc takes a commission in chemical warfare at Edgewood, Maryland. We freshmen will miss him greatly because he is our chem. lab. instructor. "Doc" receives our highest appreciation for his faithful interest and his support of Pi. We wish him a great success and hope that he may be back some day.

WALTER E. GARMAN, JR.

Rho*Lafayette***ELECTIONS:**

House elections for the coming school year were held on Monday, April 20. The men elected will hold office, according to Rho's custom, until the spring of next year.

Allen Dean, Rho's Consul for the coming year

Brother Allen Dean, '43, was elected Consul. A transfer from Bergen Junior College, Brother Dean is studying engineering here at Lafayette. Brother Joe Braido, '43, was elected Senior Tribune. Brother Braido has done a fine job as varsity tackle on the football team and is a member of the Maroon Key Society. In addition, Joe has made a good showing in amateur theatrics. Other officers are as follows: Lester Kennedy, '44, Junior Tribune; Stanley Erbacher, '44, Commissar; Breslin McKnight, '44, Praetor;

Charles Hoffman, '44, Quaestor; Stanley Erbacher, '44, Proprietor; John LaMond, '44, and Robert Nyberg, '43, Rushing Co-chairmen; Roger Mortimore, '44, Intramural Manager; Thomas Howard, '43, Social Chairman; Thomas Dutcher, '45, Centurion; Breslin McKnight, '44, Junior Interfraternity Council Representative; Robert Nyberg, '43, and Jack Strollo, '43, Scholarship Co-chairmen; Edward Relph, '44, Pontifex.

INTRAMURAL SPORTS:

As in touch football and basketball, we were close to the top in both baseball and softball but lacked the final winning punch. In our first baseball game this season, we lost the services of John Knobloch, our ace pitcher and curve-ball artist. In an attempt to stretch a triple into a home run (Johnny's a hitter as well as a pitcher) he was forced to slide for home plate and sustained a broken ankle as a result.

Insufficient training showed up in our intramural track meet as Rho's "speedsters" just couldn't muster up enough speed. Joe Braido, however, saved the day by far outdistancing the field in the shot-put and winning easily. Rog Mortimore placed third in the high jump.

SPRING DANCE:

The Spring Interfraternity Dance was a huge success. Prom-goers found the weekend of April 24 perfect in every respect. In addition to enjoying the danceable strains of Alvino Rey and the sweet harmony of the King Sisters, the dancers found ideal Prom weather and a full sports program. On Saturday afternoon we had a picnic along the banks of the Delaware. This was followed by our annual dinner dance, which was attended by forty couples. Music for the dinner dance was furnished by a local fourteen-piece band. Sunday found the fellows and their dates completely fatigued but wishing the weekend were just beginning.

DADS' DAY:

Rho Chapter members entertain their fathers at a stag picnic and baseball game.

This year we at Rho inaugurated a day on which the brothers' Dads could visit us en masse and, for once, without fear of that usual financial touch. On April 18 fifteen Dads assembled here and were whisked away to the country where we proceeded to hold a strictly stag picnic followed by a softball game that resulted in many aching backs and sore muscles. The game ended in a 9-9 deadlock and was called because of the poor physical condition of the Dads. Saturday dinner was served at the house and that was followed by good old-fashioned singing. The last part of the day's program was filled by a magician-hypnotist act. Fathers and sons alike were amazed at the hypnotic powers displayed.

Needless to say, a good time was had by all. We feel that Dads' Day has been invaluable to all concerned and we intend to make it an annual event.

EXTRA-CURRICULAR
ACTIVITIES:

Brother George Mellert, '44, has been playing No. 3 position on the Lafayette golf team. George has been turning in good scores all season and, without doubt, his remarkably accurate long-range putting is largely responsible for his low scores.

Brother Jack Kowaleski, '45, has the shortstop position on Lafayette's freshman baseball team well under control. Jack has been stopping everything

that's come his way except balls over a mile high and he is showing real promise for future years.

Brothers Joe Braido, '43, and Stan Erbacher, '44, held roles in "The Male Animal," final little Theater production of the year. Joe, in his first appearance on the stage, performed like a veteran in his hilarious interpretation of the character of Whirling Joe Ferguson, ex-football hero of fictitious Midwestern University. Erbacher played the part of Ed Keller; this was his second performance on the Lafayette stage. The play was a hit and drew an overflow crowd on each night of its four-night run.

PLEDGING:

Rho chapter welcomes Joe Caporaso, '45, and Monat Burt, '44, into the pledge class. Joe's a resident of Dover, New Jersey, and Monta's home is in Coudersport, Penna. We are glad to have these fellows in our midst.

Rushing is still going strong, and we hope to have at least two more pledges by May 15, at which date the school year comes to a close.

RHO MEN IN SERVICE:

We've just received word that Brothers Lee Trexler, '41, Tipton, Penna., and Fred Broadfoot, '41, Ridgewood, New Jersey, are now buck privates in the army.

Brother John Knobloch, '42, will enter the U.S. Army as a second lieutenant, having successfully completed four years of R.O.T.C. training here at Lafayette.

Brother Reed Newcomb, Ex '44, is accepted in the Army Air Corps and is awaiting orders for active service.

STANLEY H. ERBACHER.

Sigma

Oregon State

INITIATION:

Spring term saw five men initiated into Sigma chapter. We have the pleasure to announce the following new members: James Allison, freshman in

architecture; James Bird, sophomore in engineering; Blaine Brattain, freshman in agriculture; Lloyd Sipe, freshman in agriculture, and Ervin Thoreson, freshman in agriculture.

PLEDGING:

Pledging has slowed down a little this spring term; we have only Robert Prange, sophomore in engineering, to announce. At present we are working hard and by the next issue we should have quite a few to announce.

NEW OFFICERS:

In order to fill the office of Custodian, which was left vacant by the graduation of Jay Hughes, George Drury was unanimously elected. As George will graduate this June, we will have to elect a new one next fall.

SOCIAL:

Our social calendar spring term was high lighted by our spring formal. The house was decorated in yellow, red, white, and blue. Together with the soft blue lighting, it was very nice. Chaperones included Judge and Mrs. LeMaster, Captain and Mrs. MaChenzie, and Mr. and Mrs. Bill Paul.

This past weekend being Mothers' weekend, there was a lot going on. Sunday we had a dinner at the chapter house for the mothers. The list of mothers included Mmes. Baker, Brattain, Lindsey, Merydith, Sipe, Smith, Vincent, and Young. A good time was had by all.

We had two picnics this term, one of which was at the coast. We each took a date and a swell time was had until the Oregon weather caught up on us and started to rain. About 32 of us were packed in a truck. We took sandwiches, hot dogs, potato salad, ice cream, and all the trimmings. The picnic was held at Walport.

WALLACE SMITH.
